Belmont Hotel (YMCA) – Designated Local Landmark

The Belmont Hotel, home of the YWCA, is proposing a comprehensive building rehabilitation. According to the applicant's submittal, the YWCA and their architect have been working with the Wisconsin Historical Society to rehabilitate the building according to the Secretary of Interior Standards in order to receive tax credits for the project. The proposed changes are outlined in the applicant's cover letter.

As all proposed changes will meet National Park Service Secretary of the Interior Standards, and will be a welcome rehabilitation of this local landmark. Staff recommends approval.

Respectfully Submitted,
Rebecca Cnare
