To; Ben Van Pelt, Chair; Members of the Conference Committee; and Jennifer Stoiber, Program Assistant

Dear Ben and Jen, Please convey my thoughts below to the members of the Conference Committee as they deliberate funding recommendations for EOP. First, I want to state that I believe the staff did an excellent job reviewing the proposals and making recommendations. Their recommendations were for sound proposals that deal with a number of different needs in the community and take different parts of the city into consideration. The only change I would propose making to the staff recommendations would be to not fund the DANenet proposal and apply all of that money to MOSES. The speakers for MOSES made pretty clear what the problem is that they are trying to address. Too many persons are already incarcerated than should be and the key to parole revocation should be whether a parolee is victimizing someone. DANenet points to a need that I believe exists but whose solution I believe is already out there for someone who wants to get connected. Thank you. Kim Genich
