Subject: RE: 4716 Verona Rd - Staff Report

I can't attend tonight but maybe someone could indicate my support for this project *contingent upon* the applicant's willingness / ability to meet the conditions laid out by staff. I agree you guys have been very clear about the conditions and the direction and continue to think it's important that U-Haul meet those conditions in order to secure approval.

Hope that helps. Thanks so much everyone, Brian
