**Subject:** UDC Dec. 5 Agenda Item 4

I've sent this to UDC members but I thought I would also send you a copy.

Our Alderman Mark Clear has sent out an advisory (emailed at 11:32 last night) regarding "a first and final" Urban Design Commission meeting today at 4:30 which has on it's agenda a proposed 24/7 coffee shop in the old Good and Loud parcel, two businesses would be placed on the parcel.

He purposely announced this at the 11th hour knowing full well that there would be little or no time for neighborhood input on a business which would be almost directly across from Flambeau an already troubling intersection.

I hope you will consider delaying final approval until the neighborhood is given an adequate time to address various concerns.
