June 15, 2009

Recognizing the existing conditions and need to renovate the houses as part of the PUD-SIP for 121 North Butler Street, I accept the alteration application asking for a minor alteration to the PUD-SIP that would allow permits to be issued for improvements to the two buildings that are to remain on Hancock Street and for the renovation of the house at 119 North Butler Street.

I am withholding comment on the proof of financing requirements pending additional future information from the applicant, and I expect the Plan Commission to take up any future changes to the conditions of the accepted PUD-SIP.

Bridget Maniaci
