To Madison Parks BOC:

Regarding BOC Agenda Items 14 (File #74912) 19 (File #74949): Please table these and all other items located within or affecting city districts 12 and 17, until after new duly elected alders have had time to be trained and to consult with constituents (i.e., June 2023).

Regarding Agenda Item 19, if approved after alders May 2023:

Reindahl Park and trail users should be notified of any camera placement that captures human activity, day or night. E.g., notices painted on the trail where the camera captures activity, a small sign posted inside the community gardens, etc. The UW researchers should also be required to pledge that cameras will be installed so as not to be able capture any human activity in nearby residences or other private buildings, as has happened all too frequently elsewhere (bonding would be appropriate).
