Wine & Liquor Display Fixtures - Heavy Shelving

Available in Oak and Maple. Heavy Shelving is a starter and add-on system in sizes and configurations to fit your needs. Use with or without backing. Heavy shelves for shelving units hold up to 400 pounds each. See current moulding options. Ships KD.

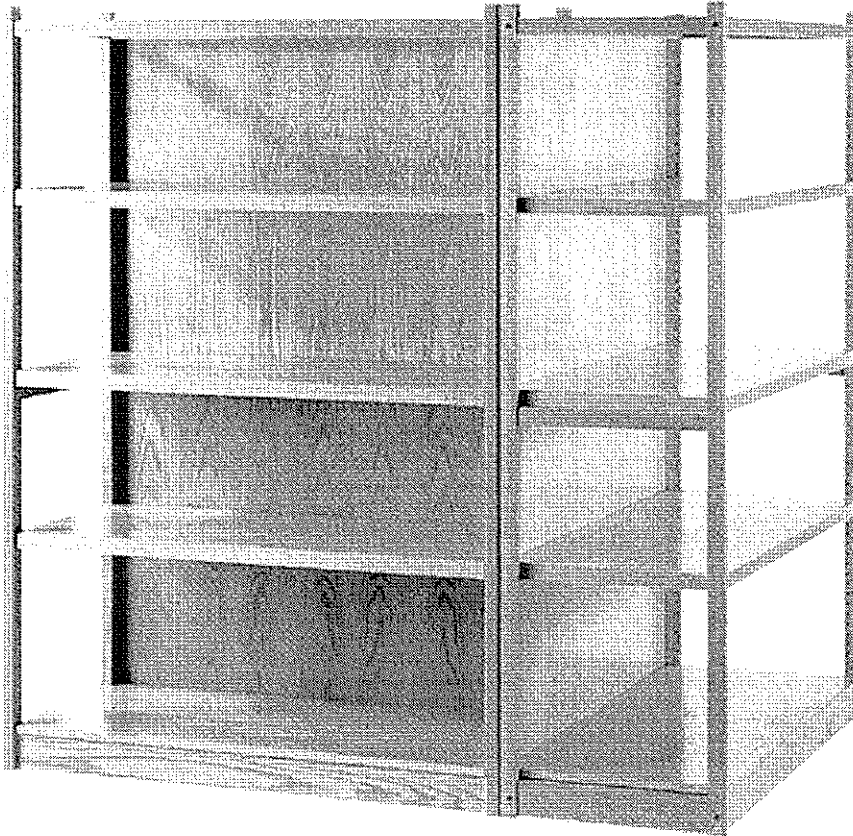

New MightyPine Shelving -

Made of laminated layers of Pine used for both the uprights and shelves, designed to carry heavy loads and is resistant to seismic forces. Read about the seismic tests conducted with MightyPine Shelving.

OSU's Test Results Support the Strength of MightyPine Shelving

Read the endorsement from OSU's Oregon Wood Innovation Center, published 1-08-09. OSU wood science professor Rakesh Gupta and colleagues at the Oregon Wood Innovation Center subjected the rack to seismic testing that included two weeks of simulated earthquakes measuring up to 7.1 on the Richter scale. The shelving units are primarily designed for wine departments in retail stores.
