Subject: NO! developing Fair Oaks

I am completely absolutely opposed to any multi family development of more than two stories or which would introduce more than 50 new units to the blocks between Kipp and Atwood Av. My neighborhood's character and density, traffic, noise and so forth would all change for the worse with any of the plans now being floated. The hundreds of units proposed would create pandemonium. I've lived here for the past 30 years for a reason; don't take that away from me.
