Hello,

My neighbors have informed there is a consideration for turning part of Sherman Avenue into a pedestrian/bike boulevard. I live at 1011 Sherman Avenue. I am in support of this idea - it would be great to have more space for people to walk/run/bike to help support the social distancing needed to prevent COVID-19. There has been an increase in foot traffic, which is wonderful, but I notice a lot of people dodging each other/crossing streets to avoid contact. Opening up Sherman to foot/bike traffic only is a great idea and one I full-heartedly support.

Thank you for your consideration.
