Hi,

I wanted to write and express my support for the views of Montessori Children's House in the case of the new proposed development. Our kids spent foundational years at MCH, and we found it to be the most magical, warm, nurturing and welcoming place. The school is a humble hidden gem in the midst of a bustling city area. We are also members of Supreme Fitness and West Side Swim Club - so we are very active in the area and care a lot about how it develops as the city grows.

I support and advocate for MCH's suggestion that the building be set back and have full privacy considerations for the kids. They are young and very innocent. It's a short and special time of life. Having a light-filled, safe and cozy environment is meaningful to children's well being and will help keep the school strong for years to come.

Thanks,

Clare Stoner Fehsenfeld

To Plan Commission:

I am writing to express my opposition to the demolition and proposed development of the 5534 Medical Circle site. The four existing Marshall Erdman buildings were built as a set to complement each other. Destroying one of the four buildings would have an impact on the other three existing buildings, permanently altering this historic area, (as well as severely affecting the Montessori School next door.) I believe this would be a loss to Madison, as Erdman's designs began here and were expanded to other areas of the country.

In Europe, buildings stand for hundreds of years, yet we are prone to tearing down perfectly good buildings at the slightest whim of a developer. Please research and consider 5534 Medical Circle as it pertains to the rest of Medical Circle.

Thank you.

Sincerely,
Alice Williams
