Dear Council reps, I am writing to express my opinion regarding the application for a liquor store license in the Madison Plaza on Verona Rd. I would highly advise you vote it down.

I have been a service provider in the Allied Drive neighborhood for seven years. The number one barrier for residents living in this neighborhood is substance abuse issues. Clearly we do not need to have a liquor store more accessible than what there is already. With Zimmerman Liquor just around the corner and beer availability at the gas stations there is no need for adding a liquor store, people have enough opportunity. Having a store so close that invites pedestrian customers from the neighborhood will only be like adding fuel to the fire. Please don't make the Allied community victim to problems any more than is already happening. Vote for health instead by denying their request for a license.

Thank you very much

Susan Corrado
