Dear Park Commissioners:

We write to you in support of the proposed sculpture, *Momental*, by Jeff Repko which we hope to see installed at Elver Park in the coming months. There are numerous studies that support the positive effects of public art on the communities in which they exist, hence we would be excited to have this piece in our neighborhood. The installation of *Momental* will provide freely accessible, playful and interesting art for our community, demonstrating the use of beautiful public spaces in inspiring and innovative ways. We are impressed and supportive of the advances Madison Parks have made to activate City parks into places that can be enjoyed in myriad, non-traditional ways. We see this addition as keeping with your progressive, innovative tradition that has made our park system second to none in this country.

We thank you in advance for your consideration. If you have any questions, please do not hesitate to ask.

Regards,
