Dear Members of the ALRC:

I am a resident in the Marquette neighborhood, living in the 900 block of Jenifer Street, on the corner of Jenifer and Paterson Streets. I moved here in July of last year. During the summer and early fall, I heard considerable noise late into the night. Some of it, such as athletic whistles, was clearly from Wisco. Otherwise, music and voices could have been Wisco and/or Prism. The proposed Canopy establishment would be in the 900 block of Williamson Street-- "close to home."

This is a neighborhood and, as such, doesn't really need a night club. Into autumn, noise is audible even through closed windows. I wonder about people with children on "school nights."

Please do NOT grant the alcohol and entertainment licenses to Canopy.

Thank you.

Yours truly,
Helen Schneider
