To: Property Owners along Cottage Grove Road

Re: Proposed Street Reconstruction & Common Council Public Hearing

The City of Madison, in conjunction of the Wisconsin Department of Transportation, is proposing to reconstruct portions of Cottage Grove Road in 2020. The proposed project will include street improvements and construction of new water main and storm sewer. Enclosed with this letter is notification for a Public Hearing before the Common Council. The date, time and location of the public hearing can be found on the enclosed notification.

The project will involve special assessments to the owners of property adjacent to the project. Property owners will be assessed for various items included with this proposed project, and the costs of some of those items are assessed entirely to the owner. Enclosed is a Schedule of Assessments, which shows the estimated costs for each property adjacent to the project. After the work is complete, a final assessment will be calculated based on bid prices and work actually performed. The final assessment, which will be billed after the completion of the project, is payable in one lump sum or over a period of eight years, with 4.0% interest charged on the unpaid balance.

The project and special assessments were recommended for approval at the August 21, 2019 Board of Public Works meeting. Please note there was a discrepancy regarding the payback period for the special assessments in the cover letter for the mailing giving notice of the public hearing before the Board of Public Works. The cover letter stated that the payback period is payable in one lump sum or over a period of fifteen years, while the correct payback period is over eight years. The information on the Notice of Public hearing correctly identified the payback period of eight years.

To request accommodations for special needs or disabilities or if you have any other questions regarding this project, please contact Glen Yoerger, the Project Engineer at 261-9177 or email at gyoerger@cityofmadison.com. This includes requests relating to the Public Hearing and also requests relating to the actual operations of construction. A list of other contacts for the project can be found on the enclosed fact sheet. Hearing impaired persons may contact the City's TDD number at 1-866-704-2315 to make arrangements for assistance during the meeting.

Sincerely,

Robert F. Phillips, P.E.
City Engineer
