

Consortium Vendor and Factory Registration Process

Vendor registers with the Consortium to gain access to the online supplier database, including bidding tools.

Bidder or intended awardee submits Certificate of Compliance via Consortium website, including factory listings.

Factory is in database with up to date registration (verified production location)

Factory is not in database with up to date registration

Bidder/intended awardee makes \$75/factory payment to Consortium along with Certificate of Compliance

Consortium issues verified Certificate of Compliance to bidder and government agency

If successful

Consortium verifies factory location. Procedures: 1) internet research, including Import Genius database; 2) phone call to factory; 3) email

If verification fails

End: Government agency makes purchasing decision

Consortium rejects Certificate of Compliance and notifies bidder and government
