Subject: Metro Transit Redesign Objection

Caution: This email was sent from an external source. Avoid unknown links and attachments.

Hello,

Remove busses from the State Street to transform into pedestrian mall. Ask every business owner on state street we all agree on this. We are against the outdated approach of ineffective management of transit in downtown Madison. We need to transform and make meaningful impact to Madison community and do something different for once to achieve different better result. Outside of the box thinking and listening to local entrepreneurs and people who actually make things happen, drive economy and innovation. City must take more progressive approach and stop being obstructionists as well as making rigid decision that no one benefit except two people who ride each bus. That is easily can be driven on different near by streets. One person might be inconvenienced but how many will benefit in a very impactful way. Including families, visitors and local community.

Thank you,

~ Alina
