This is for the hearing on Monday november 23, at 5:30pm.  
The demolition created much dust and for weeks the demolished property was not clean and covered with tarp. Has there been a detailed investigation on asbestos in the house before it was demolished?

My husband and I live directly across the street from 502 Leonard St. at 505. We have seen the plans for the proposed new home that Brian and Kelly are hoping to build and we approve of the plans. It is a conventional looking house and will fit into the neighborhood of 2 story homes.
