Subject: Village of McFarland Sanitary Sewer Extension on Voges Road

Dear Mike:

The Village of McFarland would like to proceed with a redevelopment project on Voges Road. As Pauline Boness requested in her letter to Larry Nelson dated September 11, 2008, this development is most effectively served by an extension of City of Madison sanitary sewer.

The Village is requesting your approval to allow the Village to extend the sanitary sewer approximately 600 feet to the west to serve this proposed redevelopment. This would extend to the property at 4811 Voges Road. Extension further to the west is not necessary due to those properties on the south side of the road being served by the Village of McFarland to the south. However, if extension further to the west is desired in the future due to a change in conditions or redevelopment, accommodations for such development can be discussed.

If you have any questions, please feel free to call.

Very truly yours,  
TOWN & COUNTRY ENGINEERING, INC.

  
John L. Jenkins  
Staff Engineer
