

12-4-13 VOC meeting

ID # 32004 - consider more specific definition of "sabbatical"

Sample/Draft language to revise sabbatical definition for all types of licenses:

How to calculate Seniority for Camp Randall High Density Vendors:

Seniority shall be calculated by counting the number of vending seasons that the vendor purchased and used a Camp Randall High Density Vending License (of any duration), counting backwards from the present. However, a vendor may take one (1) vending season as a sabbatical (not purchase a license that season or failing to vend at all during the season) without losing consecutive years of seniority, but that year will not be counted toward the vendor's total seniority. If a vendor takes goes two (2) or more consecutive vending seasons without purchasing a Camp Randall High Density Vending\* license, ~~sabbaticals in a three (3) year period,~~ the vendor will lose all years of seniority and be placed at the bottom of the seniority list upon their next application for a site.

Questions -

(1) must they purchase the type of license in question (camp randall, mall food, etc.) or can they purchase ANY kind of vending license to maintain their seniority?

(2) do we care if they USE the license, or just want them to PURCHASE one?

Some of these questions may have been answered the last time we tackled this issue (2011.)

Once language is decided on, I will make this change to all of the places in the regs and 9.13 where the sabbatical concept is listed.
