

TPPB Public Comment Item #3 File #69989 – Received 3-14-22

A piece of the action plan would require every street in Madison to be curbed.

Our neighborhood, Crestwood, is a row of dead end streets and there is no through traffic. Our family has lived here for 20 years and we see bikers and walkers easily and safely share the roads with the occasional slow moving cars. Installing curbs would be a needless waste of resources and would mar the historical nature and charm of the neighborhood.

Thanks

Dan Broner
