Please contact my office at 261-9632 if you have questions regarding the following condition added by the Plan Commission:

4. That the applicant work with the Planning Division staff, in consultation with the City Forester, on a tree preservation plan for the property during construction.

Please now follow the procedures listed below for obtaining your demolition permit:

1. Please revise your plans per the above and submit *five (5) copies* of a complete plan set to the Zoning Administrator for final review and comment. Also be sure to include any additional materials requested by these departments for their approval prior to sign off, including the required tree preservation plan.
2. A reuse and recycling plan approved by the Recycling Coordinator is required by ordinance prior to the issuance of a wrecking permit. The reuse and recycling plan shall be submitted along with the resubmittal of site plans for forwarding to the Recycling Coordinator.
3. The Madison Water Utility shall be notified to remove the water meter prior to demolition.
4. This letter shall be signed by the applicant to acknowledge the conditions of approval and returned to the Zoning Administrator when requesting demolition and/or building permit approval.
5. This approval shall become null and void one year after the date of the Plan Commission unless the use is commenced, construction is under way, or a valid building permit is issued and construction commenced within six months of the issuance of said building permit. The Plan Commission shall retain jurisdiction over this matter for the purpose of resolving complaints against the approved demolition permit.
