

## MPD PSRC JULY REPORT

### Shots Fired from June (2018).

There were **13 reported shots fired calls** for service last month. Through the end of June (2018), there have been **101 shots fired calls**. For the first 6-months of last year there were 95 shots fired calls recorded; thus we saw a **6.3% increase** this year from last year.

A break-down of shots fired for June per district:

- North: 6
- East: 3
- West: 1
- South: 2
- Central: 0
- Midtown: 1

Of the shots fired calls, 4 properties were found with damage from gunfire (**36 properties year-to-date**) and 2 subjects were struck by gunfire (**11 year-to-date**). We also recovered **86 casings** in June (**349 year-to-date**) when responding to shots fired calls.

### Stolen Autos

In June (2018) we took **38 reports of stolen autos**; 32 of these vehicles have since been recovered. In June (2017), there were **27 reports of stolen autos**; thus last month we saw a 41% increase.

Of the 38 vehicles stolen, **36 had keys inside of them!** It was also noted that 2 of the stolen vehicles were left unlocked, unoccupied and running.

Where did the auto thefts occur per district in June?

- West: 20
- South: 3
- Central: 1
- North: 4
- Midtown: 6
- East: 4

We have had **201 stolen autos** already this year. Last year, at this time, we had 169, so we are up **18.9%**.

## Heroin OD'S

June 2018.....projected to be the **WORST MONTH EVER** in the City of Madison for **heroin deaths** and the **second worst** for **overdoses**.

There were **35 known overdoses** in June (2018). In June (2017) there were **9**; thus we saw a **289% increase**.

There were **11 suspected deaths from heroin overdoses** in June (2018). In June (2017) there were **2**; thus we saw a **450% increase!**

What we know about this heroin epidemic from June –

- 2 subjects who overdosed where homeless; neither is one of the 11 fatalities.
  - 3 subjects were found eligible and referred to the Madison Addiction Recovery Initiative (MARI); all 3 have at least called to set up an assessment.
  - Approximately 10 of the overdoses occurred in places of business; several others occurred in parking lots or streets.
  - ~~26 of the 35 subjects experiencing an overdose were males.~~
  - 25 of the 35 subjects experiencing an overdose were in their 20's or 30's.
