

**PLANNING DIVISION REPORT  
DEPARTMENT OF PLANNING AND COMMUNITY  
AND ECONOMIC DEVELOPMENT  
of May 30, 2007**

**RE: LD. # 06632, Conditional Use Application/ PUD Alteration– 1330 Regent Street and 10 N. Orchard Street**

1. Requested Action: Approval of a major alteration to a conditional use for property located at 1330 Regent Street and an alteration to a planned unit development for property located at 10 N. Orchard Street to allow a revised site plan for a temporary outdoor eating area at Jordan's Big Ten Pub for home football games.
2. Applicable Regulations: Section 28.09 (4)(d) identifies outdoor eating and recreation areas as conditional uses in C3 zoning by reference to conditional uses in C2 zoning. Section 28.12 (11) provides the guidelines and regulations for the approval of conditional uses. Section 28.07 (6)(9)4.d. provides the Plan Commission with the authority to approve alterations to planned unit developments if the changes are compatible with the plans approved by the Common Council.
3. Report Prepared By: Timothy M. Parks, Planner

**GENERAL INFORMATION**

1. Applicant: Kelly Jordan, Jordan's Big Ten Pub, Inc.; 1330 Regent Street; Madison.  
  
Property Owners: 1330 Regent Street – Leo Krantz, 6114 Old Middleton Road; Madison;  
10 N. Orchard Street – Orchard Court, LLP; 110 S. Brooks Street; Madison.
2. Development Schedule: The applicant wishes to continue operating the temporary outdoor eating area/ beer garden for future University of Wisconsin home football games.
3. Location: The subject beer garden occupies a surface parking lot fronting onto Regent Street, 140 feet west of N. Orchard Street; Aldermanic District 5; Madison Metropolitan School District.
4. Existing Conditions: Jordan's Big Ten Pub occupies a 0.25-acre parcel at 1330 Regent Street, zoned C3 (Highway Commercial District), while a mixed-use residential-commercial project occupies approximately 0.93-acres at the northwest corner of Regent and N. Orchard streets in PUD-SIP zoning.
5. Proposed Land Use: Jordan's Big Ten Pub wishes to codify an earlier unapproved expansion of its temporary outdoor eating area/ beer garden for University of Wisconsin home football games.

6. Surrounding Land Use and Zoning: The subject site is located along the Regent Street commercial corridor, with mostly medium to high-density residential uses located to the north including a variety of townhouses and apartments located generally north of this site.
7. Adopted Land Use Plan: The Comprehensive Plan generally identifies the subject site and Regent Street corridor for future neighborhood mixed-use development.
8. Environmental Corridor Status: The subject site is not located in a mapped environmental corridor.
9. Public Utilities & Services: The property is served by a full range of urban services.

#### **STANDARDS FOR REVIEW**

This application is subject to the conditional use standards of Section 28.12 (11). Section 28.07 (6)(9)4.d. provides the Plan Commission with the authority to approve alterations to planned unit developments if the changes are compatible with the plans approved by the Common Council.

#### **ANALYSIS, EVALUATION & CONCLUSION**

The applicant is requesting a major alteration to a conditional use for property located at 1330 Regent Street and an alteration to a planned unit development addressed as 10 N. Orchard Street to formally expand the service area for an existing temporary outdoor eating area/ beer garden at Jordan's Big Ten Pub for University of Wisconsin home football games.

A conditional use was first granted for a temporary outdoor eating area/ beer garden located in the parking lot of the tavern located at 1330 Regent Street in 1981. Since the initial approval, approval was granted on at least one occasion to expand the beer garden area onto the surface parking lot located on the neighboring property to the east. However, the eastern parking lot was rezoned in 1988 as part of a planned unit development that included 7,050 square feet of first floor retail and 27 dwelling units in a total of four buildings located at the corner of Regent and N. Orchard streets. The beer garden was not identified as a feature of the approved planned unit development.

The applicant, however, has been operating a beer garden that extends approximately 40 feet across her property line and into the planned unit development for an undetermined period of time. The unapproved expansion of the beer garden was discovered by Zoning and Fire Department staff as a result of regular enforcement of beer garden conditional use approvals in 2006 at which time the applicant was directed to bring the beer garden into compliance with the last approved site plan for the beer garden or to receive any approvals necessary to recognize the actual area of the beer garden. The applicant is asking the Plan Commission to approve the expanded beer garden and has submitted a site plan that shows an approximately 80-foot wide

beer garden that extends east from the eastern wall of Jordan's Big Ten Pub. The beer garden is enclosed by portable fencing with four access points and includes three bars, three refrigerated trailers and twelve portable restrooms. The letter of intent indicates that the applicant is "working on" having two Dane County Sheriff's deputies on site to provide security for the beer garden.

The request before the Plan Commission is to both modify the site plan as it pertains to the conditional use for a game day temporary outdoor eating area/ beer garden for Jordan's Big Ten Pub and to amend the PUD-SIP for 10 N. Orchard Street to show the portion of the beer garden that extends onto that property. The Planning Division does not object to the requested expansion, which has operated unapproved in a similar configuration for a period of years, and believes that the beer garden can meet the standards for approval. The Plan Commission should consider all input at the public hearing, and if approved, require that the entire beer garden continue to be bound by the standard operational conditions of approval for similar beer gardens in the vicinity of Camp Randall Stadium, which are listed below.

### **RECOMMENDATION**

The Planning Division recommends that the Plan Commission find that the standards for approval are met and **approve** the formal expansion of an existing temporary outdoor eating area/ beer garden for Jordan's Big Ten Pub for University of Wisconsin home football games, subject to input at the public hearing and the following conditions:

1. Comments from reviewing agencies.
2. That the temporary outdoor eating area/ beer garden located at 1330 Regent Street and 10 N. Orchard Street be subject to the following conditions:
  - a.) Hours of Operation of the outdoor eating area(s) for University of Wisconsin afternoon football games shall be open no later than 8:00pm, except for games with a kickoff after 5:00pm, when the outdoor eating area shall be open no later than 10:00pm.
  - b.) Outdoor live or amplified music or sound shall not be permitted before 10:00am.
  - c.) The outdoor eating area conditions imposed by the Alcohol License Review Committee (including litter control, security, etc.) shall be complied with as required by the ALRC as part of the issuance of a license for any outdoor eating area.
  - d.) Any use of an outdoor eating area for a concert at the stadium shall end one hour after the start of the concert and shall remain closed for the remainder of the evening.

**GENERAL OR STANDARD REVIEW COMMENTS**

In addition, we offer the following General or Standard Review Comments:

**Engineering Division Review of Planned Community Developments, Planned Unit Developments and Conditional Use Applications.**

Name: 1330 Regent Street and 10 N. Orchard Court Conditional Use

**General**

- 1.1 The construction of this building will require removal and replacement of sidewalk, curb and gutter and possibly other parts of the City's infrastructure. The applicant shall enter into a City / Developer agreement for the improvements required for this development. The applicant shall be required to provide deposits to cover City labor and materials and surety to cover the cost of construction. The applicant shall meet with the City Engineer to schedule the development of the plans and the agreement. The City Engineer will not sign off on this project without the agreement executed by the developer. The developer shall sign the Developer's Acknowledgement prior to the City Engineer signing off on this project.
- 1.2 The site plan shall identify lot and block numbers of recorded Certified Survey Map or Plat.
- 1.3 The site plan shall include all lot/ownership lines, existing building locations, proposed building additions, demolitions, parking stalls, driveways, sidewalks (public and/or private), existing and proposed signage, existing and proposed utility locations and landscaping.
- 1.4 The site plan shall identify the difference between existing and proposed impervious areas.
- 1.5 The site plan shall reflect a proper street address of the property as reflected by official City of Madison Assessor's and Engineering Division records.
- 1.6 Coordinate all necessary new interior addresses associated with this proposed development with City Engineering Program Specialist Lori Zenchenko [lzenchenko@cityofmadison.com](mailto:lzenchenko@cityofmadison.com) or (608) 266-5952
- 1.7 The site plan shall include a full and complete legal description of the site or property being subjected to this application.

4

Right of Way / Easements

- 2.1 The Applicant shall Dedicate a \_\_\_\_\_ foot wide strip of Right of Way along \_\_\_\_\_.
- 2.2 The Applicant shall Dedicate a \_\_\_\_\_ foot wide strip of Right of Way along \_\_\_\_\_.
- 2.3 The Applicant shall Dedicate a Permanent Limited Easement for grading and sloping \_\_\_\_\_ feet wide along \_\_\_\_\_.
- 2.4 The City Engineer has reviewed the need for pedestrian and bicycle connections through the development and finds that no connections are required.
- 2.5 The Applicant shall Dedicate a Permanent Limited Easement for a pedestrian / bicycle easement \_\_\_\_\_ feet wide from \_\_\_\_\_ to \_\_\_\_\_.
- 2.6 The Developer shall provide a private easement for public pedestrian and bicycle use through the property running from \_\_\_\_\_ to \_\_\_\_\_.
- 2.7 The developer shall be responsible for the ongoing construction and maintenance of a path within the easement. The maintenance responsibilities shall include, but not be limited to, paving, repaving, repairing, marking and plowing. The developer shall work with the City of Madison Real Estate Staff to administer this easement. Applicable fees shall apply.

Streets and Sidewalks

- 3.1 The Applicant shall execute a waiver of notice and hearing on the assessments for the improvement of [roadway] \_\_\_\_\_ in accordance with Section 66.0703(7)(b) Wisconsin Statutes and Section 4.09 of the MGO.
- 3.2 **Value of sidewalk installation over \$5000.** The Applicant shall Construct Sidewalk to a plan approved by the City Engineer along \_\_\_\_\_.
- 3.3 **Value of sidewalk installation under \$5000.** The Applicant shall install public sidewalk along \_\_\_\_\_. The Applicant shall obtain a Street Excavation Permit for the sidewalk work, which is available from the City Engineering Division. The applicant shall pay all fees associated with the permit including inspection fees. All work must be completed within six months or the succeeding June 1, whichever is later. This permit application is available on line at <http://www.cityofmadison.com/engineering/permits.cfm>.
- 3.4 The Applicant shall execute a waiver of their right to notice and hearings on the assessments for the installation of sidewalk along [roadway] \_\_\_\_\_ in accordance with Section 66.0703(7)(b) Wisconsin Statutes and Section 4.09 of the MGO.
- 3.5 The Applicant shall grade the property line along \_\_\_\_ to a grade established by the City Engineer. The grading shall be suitable to allow the installation of sidewalk in the future without the need to grade beyond the property line. The Applicant shall obtain a Street Excavation permit prior to the City Engineer signing off on this development. This permit application is available on line at <http://www.cityofmadison.com/engineering/permits.cfm>.
- 3.6 The Applicant shall close all abandoned driveways by replacing the curb in front of the driveways and restoring the terrace with grass.
- 3.7 **Value of the restoration work less than \$5,000. When computing the value, do not include a cost for driveways. Do not include the restoration required to facilitate a utility lateral installation.** The Applicant's project requires the minor restoration of the street and sidewalk. The Applicant shall obtain a Street Excavation Permit for the street restoration work, which is available from the City Engineering Division. The applicant shall pay all fees associated with the permit including inspection fees. This permit application is available on line at <http://www.cityofmadison.com/engineering/permits.cfm>.
- 3.8 The Applicant shall make improvements to \_\_\_\_\_ in order to facilitate ingress and egress to the development. The improvement shall include a (Describe what the work involves or strike this part of the comment.) \_\_\_\_\_.
- 3.9 The Applicant shall make improvements to \_\_\_\_\_. The improvements shall consist of \_\_\_\_\_.
- 3.10 The approval of this Conditional Use does not include the approval of the changes to roadways, sidewalks or utilities. The applicant shall obtain separate approval by the Board of Public Works and the Common Council for the restoration of the public right of way including any changes requested by developer. The City Engineer shall complete the final plans for the restoration with input from the developer. The curb location, grades, tree locations, tree species, lighting modifications and other items required to facilitate the development or restore the right of way shall be reviewed by the City Engineer, City Traffic Engineer, and City Forester.
- 3.11 The Applicant shall provide the City Engineer with a survey indicating the grade of the existing sidewalk and street. The Applicant shall hire a Professional Engineer to set the grade of the building entrances adjacent to the public

4

right of way. The Applicant shall provide the City Engineer the proposed grade of the building entrances. The City Engineer shall approve the grade of the entrances prior to signing off on this development.

- 3.12 The Applicant shall replace all sidewalk and curb and gutter which abuts the property which is damaged by the construction or any sidewalk and curb and gutter which the City Engineer determines needs to be replaced because it is not at a desirable grade regardless of whether the condition existed prior to beginning construction.
- 3.13 The Applicant shall obtain a privilege in streets agreement for any encroachments inside the public right of way. The approval of this development does not constitute or guarantee approval of the encroachments.
- 3.14 The Applicant shall provide the City Engineer with the proposed soil retention system to accommodate the restoration. The soil retention system must be stamped by a Professional Engineer. The City Engineer may reject or require modifications to the retention system.
- 3.15 The Applicant shall complete work on exposed aggregate sidewalk in accordance with specifications provided by the city. The stone used for the exposed aggregate shall be approved by the City. The Construction Engineer shall be notified prior to beginning construction. Any work that does not match the adjacent work or which the City Construction Engineer finds is unacceptable shall be removed and replaced.
- 3.16 All work in the public right-of-way shall be performed by a City licensed contractor.
- 3.17 Installation of "Private" street signage in accordance with 10.34 MGO is required.

#### Storm Water Management

- 4.1 The site plans shall be revised to show the location of all rain gutter down spout discharges.
- 4.2 Storm sewer to serve this development has been designed and constructed. The site plans shall be revised to identify the location of this storm sewer and to show connection of an internal drainage system to the existing public storm sewer.
- 4.3 The plan set shall be revised to show a proposed private internal drainage system on the site. This information shall include the depths and locations of structures and the type of pipe to be used.
- 4.4 The applicant shall show storm water "overflow" paths that will safely route runoff when the storm sewer is at capacity.
- 4.5 The applicant shall demonstrate compliance with Section 37.07 and 37.08 of the Madison General Ordinances regarding permissible soil loss rates. The erosion control plan shall include Universal Soil Loss Equation (USLE) computations for the construction period. Measures shall be implemented in order to maintain a soil loss rate below 7.5-tons per acre per year.
- 4.6 The City of Madison is an approved agent of the Department of Commerce. This proposal contains a commercial building and as such, the City of Madison is authorized to review infiltration, stormwater management, and erosion control on behalf of the Department of Commerce. No separate submittal to Commerce or the WDNR is required.
- 4.7 This development includes multiple building permits within a single lot. The City Engineer and/or the Director of the Inspection Unit may require individual control plans and measures for each building.
- 4.8 If the lots within this site plan are inter-dependent upon one another for stormwater runoff conveyance, and/or a private drainage system exists for the entire site an agreement shall be provided for the rights and responsibilities of all lot owners. Said agreement shall be reviewed and placed on file by the City Engineer, referenced on the site plan and recorded at the Dane Co Register of Deeds.
- 4.9 Prior to approval, this project shall comply with Chapter 37 of the Madison General Ordinances regarding stormwater management. Specifically, this development is required to:
  - Detain the 2 & 10-year storm events.
  - Detain the 2, 10, & 100-year storm events.
  - Control 40% TSS (20 micron particle).
  - Control 80% TSS (5 micron particle).
  - Provide infiltration in accordance with NR-151.
  - Provide substantial thermal control.
  - Provide oil & grease control from the first 1/2" of runoff from parking areas.

Stormwater management plans shall be submitted and approved by City Engineering prior to signoff.

- 4.10 The plan set shall be revised to show more information on proposed drainage for the site. This shall be accomplished by using spot elevations and drainage arrows or through the use of proposed contours. It is necessary to show the location of drainage leaving the site to the public right-of-way. It may be necessary to provide information off the site to fully meet this requirement.
- 4.11 A portion of this project comes under the jurisdiction of the US Army Corp of Engineers and WDNR for wetland or flood plain issues. A permit for those matters shall be required prior to construction on any of the lots currently within the jurisdictional flood plain.

- 4.12 The Applicant shall submit, prior to plan sign-off, a digital CAD file (single file) to the Engineering Program Specialist in the Engineering Division (Lori Zenchenko). The digital CAD file shall be to scale and represent final construction. The single CAD file submittal can be either AutoCAD (dwg) Version 2001 or older, MicroStation (dgn) Version J or older, or Universal (dxf) format and contain the following data, each on a separate layer name/level number:
- a) Building Footprints
  - b) Internal Walkway Areas
  - c) Internal Site Parking Areas
  - d) Other Miscellaneous Impervious Areas (i.e. gravel, crushed stone, bituminous/asphalt, concrete, etc.)
  - e) Right-of-Way lines (public and private)
  - f) Lot lines
  - g) Lot numbers
  - h) Lot/Plat dimensions
  - i) Street names

NOTE: Email file transmissions preferred [lzenchenko@cityofmadison.com](mailto:lzenchenko@cityofmadison.com) . Include the site address in this transmittal.

- 4.13 NR-151 of the Wisconsin Administrative Code will be effective on October 1, 2004. Future phases of this project shall comply with NR 151 in effect when work commences. Specifically, any phases not covered by a Notice of Intent (NOI) received from the WDNR under NR-216 prior to October 1, 2004 shall be responsible for compliance with all requirements of NR-151 Subchapter III. As most of the requirements of NR-151 are currently implemented in Chapter 37 of the Madison General Ordinances, the most significant additional requirement shall be that of infiltration.

NR-151 requires infiltration in accord with the following criteria. For the type of development, the site shall comply with one of the three (3) options provided below:

Residential developments shall infiltrate 90% of the predevelopment infiltration amount, 25% of the runoff from the 2-year post development storm or dedicated a maximum of 1% of the site area to active infiltration practices.

Commercial development shall infiltrate 60% of the predevelopment infiltration amount, 10% of the runoff from the 2-year post development storm or dedicate a maximum of 2% of the site area to active infiltration practices.

- 4.14 The applicant shall submit, prior to plan sign-off, digital PDF files to the Engineering Division (Jeff Benedict or Tim Troester). The digital copies shall be to scale, and shall have a scale bar on the plan set.
- PDF submittals shall contain the following information:
- a) Building footprints.
  - b) Internal walkway areas.
  - c) Internal site parking areas.
  - d) Lot lines and right-of-way lines.
  - e) Street names.
  - f) Stormwater Management Facilities.
  - g) Detail drawings associated with Stormwater Management Facilities (including if applicable planting plans).

- 4.15 The Applicant shall submit prior to plan sign-off, electronic copies of any Stormwater Management Files including:
- a) SLAMM DAT files.
  - b) RECARGA files.
  - c) TR-55/HYDROCAD/Etc...
  - d) Sediment loading calculations

If calculations are done by hand or are not available electronically the hand copies or printed output shall be scanned to a PDF file and provided.

- 4.16 The area adjacent to this proposed development has a known flooding risk. All entrances shall be 2-feet above the adjacent sidewalk elevation or 1-foot above the 100-year regional flood elevation (whichever is greater). This includes garage entrances.

#### Utilities General

- 5.1 The Applicant shall obtain a Street Excavation permit for the installation of utilities required to serve this project. The Applicant shall pay the permit fee, inspection fee and street degradation fee as applicable and shall comply with all the conditions of the permit. This permit application is available on line at <http://www.cityofmadison.com/engineering/permits.cfm>.
- 5.2 The applicant shall obtain all necessary sewer connection permits and sewer plugging permits prior to any utility work. This permit application is available on line at <http://www.cityofmadison.com/engineering/permits.cfm>.
- 5.3 All proposed and existing utilities including gas, electric, phone, steam, chilled water, etc shall be shown on the plan.

- 5.4 The applicant's utility contractor shall obtain a connection permit and excavation permit prior to commencing the storm sewer construction. This permit application is available on line at <http://www.cityofmadison.com/engineering/permits.cfm>.
- 5.5 The site plans shall be revised to show the location of existing utilities, including depth, type, and size in the adjacent right-of-way.
- 5.6 The developer shall provide information on how the Department of Commerce's requirements regarding treatment of storm water runoff, from parking structures, shall be satisfied prior to discharge to the public sewer system. Additionally, information shall be provided on which system (storm or sanitary) the pipe shall be connected to.

**Sanitary Sewer**

- 6.1 Prior to approval of the conditional use application, the owner shall obtain a permit to plug each existing sanitary sewer lateral that serves a building that is proposed for demolition. For each lateral to be plugged the owner shall deposit \$1,000 with the City Engineer in two separate checks in the following amounts: (1). \$100 non-refundable deposit for the cost of inspection of the plugging by City staff; and (2). \$900 for the cost of City crews to perform the plugging. If the owner elects to complete the plugging of a lateral by private contractor and the plugging is inspected and approved by the City Engineer, the \$900 fee shall be refunded to the owner. This permit application is available on line at <http://www.cityofmadison.com/engineering/permits.cfm>.
- 6.2 All outstanding Madison Metropolitan Sewerage District (MMSD) and City of Madison sanitary sewer connection charges are due and payable prior Engineering sign-off, unless otherwise collected with a Developer's / Subdivision Contract. Contact Janet Dailey (608-261-9688) to obtain the final MMSD billing a minimum of two (2) working days prior to requesting City Engineering signoff.
- 6.3 Each unit of a duplex building shall be served by a separate and independent sanitary sewer lateral.
- 6.4 The site plan shall be revised to show all existing public sanitary sewer facilities in the project area as well as the size, invert elevation, and alignment of the proposed service.
