Agenda - Approved

MADISON FOOD POLICY COUNCIL

*Consider: Who benefits? Who is burdened?
Who does not have a voice at the table?
How can policymakers mitigate unintended consequences?*

Wednesday, October 18, 2023

5:30 PM

VIRTUAL

The City of Madison is holding the Madison Food Policy Council meeting virtually to help protect our community from the Coronavirus (COVID-19) pandemic.

1. **Written Comments:** You can send comments on agenda items to mfpc@cityofmadison.com

2. **Register for Public Comment:**

- Register to speak at the meeting.
- Register to answer questions.
- Register in support or opposition of an agenda item (without speaking).

If you want to speak at this meeting you must register. You can register at <https://www.cityofmadison.com/MeetingRegistration>. When you register to speak, you will be sent an email with the information you will need to join the virtual meeting.

3. **Watch the Meeting:** If you would like to join the meeting as an observer, please visit <https://www.cityofmadison.com/watchmeetings>.

4. **Listen by Phone:**

(877) 853-5257 (Toll Free)

Webinar ID: 892 7385 6756

If you need an interpreter, translator, materials in alternate formats or other accommodations to access this service, activity or program, please call the phone number below at least three business days prior to the meeting.

Si necesita un intérprete, un traductor, materiales en formatos alternativos u otros arreglos para acceder a este servicio, actividad o programa, comuníquese al número de teléfono que figura a continuación tres días hábiles como mínimo antes de la reunión.

Yog hais tias koj xav tau ib tug neeg txhais lus, ib tug neeg txhais ntawv, cov ntawv ua lwm hom ntawv los sis lwm cov kev pab kom siv tau cov kev pab, cov kev ua ub no (activity) los sis qhov kev pab cuam, thov hu rau tus xov tooj hauv qab yam tsawg pib hnuv ua hauj lwm ua ntej yuav tuaj sib tham.

For accommodations, contact: mfpc@cityofmadison.com

REGULAR BUSINESS REPORTS

4. [72192](#) Regional Food System Planning
REAP has not received any word about a decision on the RFSP grant from the USDA. It was expected in late September, but the chaos in the federal government has affected this and many other programs. Dane County Supervisors have introduced an amendment to the County budget to fully fund the project, in addition to the \$62k they have already committed. Jess will have an update on that process.

There are 2 more meetings of the COLP before the end of the project. Our last few meetings have been focused on how to make and advocate for policy change to support food access needs in an equitable way. Of all the members of the cohort, MFPC seems to have the most formal political authority and the longest track record of making actual policy, so sharing our experiences has really benefited others in the group. At our last meeting we had long, fruitful conversations about how to ensure that policy actually gets implemented. It all boils down to having good relationships both in the community and with people in decision making and decision implementing positions.

It has been good to be participating with Dane County Food Council representatives, and to get to know folks from other communities who have government-based food policy councils from Philadelphia, Columbus, OH, and Lawrence, KS. We share a lot of challenges around the formality of our structures while intending to be rooted in community, and with OH and KS, working in "blue" cities within "red" states.

STAFF REPORTS

13. [72194](#) Business Development Specialist
PUBLIC MARKET
On Tuesday 10/17, the Madison Common Council passed a resolution providing an additional \$1.6m to the MPM project, enough to fund the lowest construction bid received. This number was reached by employing substantial cuts (\$1.2m) from the MPM Foundation's furniture, fixtures, and equipment (FFE) budget, which would support equipment for TruStage MarketReady Hall's processing activities as well as tenant/vendor

improvement and buildout funding. On Thursday 10/19, the Dane Co Board of Supervisors will take up a resolution to provide an additional \$1m to the MPM project. If that resolution passes, the additional funds would be used to make up for the aforementioned cuts to the FFE budget.

HEALTHY RETAIL ACCESS PROGRAM and SEED GRANTS

Updates on these two programs are functions of tonight's ACTION ITEMS and a brief presentation from UW Extension included as part of the Food Systems Assessment report.

14. [72195](#) Public Health Madison & Dane County

Wisconsin Food Systems, Inc. and FEED Kitchens held a successful convening of food rescue organizations last week. Working through the Food Matters Regional Initiative partnership between the City of Madison and the Natural Resources Defense Council, Rebecca Kemble and Chris Brockel spent the summer interviewing people from organizations involved in gleaning, and that handle a lot of food waste. The convening was based on the issues raised in those conversations.

There was great participation from CAC, Second Harvest, The River, Badger Prairie Needs Network, Way Forward, St. Vinnie's, Neighborhood House Community Center, Sustain Dane, Little John's, Healthy Food for All, Northside Planning Council, as well as representation from the City, County and University of Wisconsin.

Bryan Johnson, the City of Madison Recycling Coordinator, offered words of welcome and offered to support with whatever communication needs this group has, including sharing information over the City website.

We spent some time discussing CAC's transition away from gleaning activities. They will transfer their gleaning routes to other organizations, offering their volunteers opportunities to maintain their relationships to the pantries they have been delivering to by reorganizing their work under the auspices of the organizations that take over their routes.

Sujata Gautam from Dane County Waste & Renewables was very excited to be part of this convening, and gave a brief presentation on County plans to build a Sustainability Campus that will include a large composting facility, and possibly a digester facility due to be operational in 2026.

There were three main needs identified by the group:

1. Some kind of centralized storage and/or processing facility to preserve more food before it spoils
2. Digital data infrastructure to optimize logistics and info about available food
3. Support for composting food waste that is generated by grocery stores who donate food, but ultimately paid for by non-profit pantries

We will follow up with regular, likely quarterly, calls, as well as communication on a listserv. Both the City and County will be important partners moving forward as the group advocates for the three items listed above.

15. [72196](#) Extension Dane County, UW-Madison

New report available: "Advancing Racial and Social Equity in Wisconsin Farm to School: Strategies for Investing in Historically Underserved Producers". Contains in-depth information about barriers, and in-depth recommendations for policymakers, schools, producers, and organizations. The project is a collaborative effort between the

UW-Madison School of Human Ecology's (SoHE) Civil Society and Community Research Department and Center for Community and Nonprofit Studies (CommNS), the UW-Madison Extension Community Food Systems Program, and REAP Food Group.

UW-Madison Extension Community Food Systems Food Entrepreneurship Ecosystem Development (FEED) Program is partnering with Green Bay nonprofit New Food Forum to organize a 2-day summit for Wisconsin food and farming entrepreneurs! The 2023 FEED Summit will be held in-person on November 13-14, 2023, in Green Bay, Wisconsin.

This year's theme is: Adding Value to Your Food or Farming Business! Go to <https://go.wisc.edu/j40254> for more information and to register.

Upcoming food systems educational events on the UW-Madison Extension Dane County website (<https://dane.extension.wisc.edu/>) include gardening education classes September-November.
