RE: Consideration of a conditional use on a Campus-Institutional (CI) District-zoned property without a campus master plan for an addition to an existing building that exceeds 4,000 square feet in floor area to allow construction of an addition to Edgewood High School at 2219 Monroe Street. (LNDUSE-2021-00111; ID 68194)

Dear Kelly;

On December 13, 2021, the Plan Commission found the standards met and **approved** your conditional use request for 2219 Monroe Street. Prior to issuance of building permits for your project, the conditions of approval in the following sections shall be satisfied:

Please contact Tim Troester of the City Engineering Division at (608) 267-1995 if you have any questions regarding the following twelve (12) items:

1. This site already has a stormwater management plan in place and any new impervious requires that plan be updated. For the newly developing area, prior to approval, this project shall comply with Madison General Ordinances Chapter 37 regarding stormwater management. Specifically, this development is required to submit a Storm Water Management Permit application, associated permit fee, Stormwater Management Plan, and StormWater Management Report to City Engineering. The Storm Water Management Plan & Report shall include compliance with the following:

Submit prior to plan sign-off, a stormwater management report stamped by a P.E. registered in the State of Wisconsin.

Provide electronic copies of any stormwater management modeling or data files including SLAMM, RECARGA, TR-55, HYDROCAD, Sediment loading calculations, or any other electronic modeling or data files. If calculations are done by hand or are not available electronically, the hand copies or printed output shall be scanned to a PDF file and provided to City Engineering. (POLICY and MGO 37.09(2))

Detain the 2-, 10-, 100-, and 200-year storm events, matching post development rates to predevelopment rates and using the design storms identified in MGO Chapter 37.

Provide infiltration of 90% of the pre-development infiltration volume.

Reduce TSS by 80% (control the 5-micron particle) off of newly developed areas compared to no controls.

Submit a draft Stormwater Management Maintenance Agreement (SWMA) for review and approval that covers inspection and maintenance requirements for any BMP used to meet stormwater management requirements on this project.

2. Madison Metropolitan Sewerage District (MMSD) charges are due and payable prior to City Engineering Division sign-off, unless otherwise collected with a Developer's / Subdivision Contract. Contact Mark Moder ((608) 261-9250) to obtain the final MMSD billing a minimum of two (2) working days prior to requesting City Engineering sign-off.
3. An Erosion Control Permit is required for this project.
4. A Storm Water Management Report and Storm Water Management Permit is required for this project.
5. A Storm Water Maintenance Agreement (SWMA) is required for this project.
6. This site appears to disturb less than one (1) acre of land. No submittal to the Wisconsin Department of Natural Resources (WDNR), Capital Area Regional Planning Commission (CARPC), or Department of Safety and Professional Services (DSPS) is required as the City of Madison Building Inspection Department is an approved agent for DSPS.
7. Revise the site plan to show all existing public sanitary sewer facilities in the project area as well as the size, invert elevation, and alignment of the proposed service.
8. This project will disturb 4,000 square feet or more of land area and require an Erosion Control Permit. Submit the Erosion Control Permit Application (with USLE calculations and associated fee) to Megan Eberhardt (west) at meberhardt@cityofmadison.com, or Daniel Olivares (east) at daolivares@cityofmadison.com, for approval.
9. This project will require a concrete management plan and a construction dewatering plan as part of the erosion control plan to be reviewed and approved by the City Engineer's Office. If contaminated soil or groundwater conditions exist on or adjacent to this project additional WDNR, Public Health Madison-Dane County, and/or City Engineering approvals may be required prior to the issuance of the required Erosion Control Permit.
10. This project appears to require fire system testing that can result in significant amounts of water to be discharged to the project grade. The Contractor shall coordinate this testing with the erosion control measures and notify City Engineering (608) 266-4751 prior to completing the test to document that appropriate measures have been taken to prevent erosion as a result of this testing.
11. Submit, prior to plan sign-off but after all revisions have been completed, a digital CAD file (single file) to the Engineering Division that is to scale and represents final construction with any private storm and sanitary sewer utilities.

12. Submit, prior to plan sign-off but after all revisions have been completed, digital PDF files to the Engineering Division. Email PDF file transmissions are preferred to: bstanley@cityofmadison.com (East) or ttroester@cityofmadison.com (West).

Please contact Sean Malloy of the Traffic Engineering Division at (608) 266-5987 if you have any questions regarding the following item:

13. The developer shall provide a recorded copy of any joint driveway ingress/egress and crossing easements and shall be noted on face of plan.

Please contact Jacob Moskowitz, Assistant Zoning Administrator, at (608) 266-4450 if you have any questions regarding the following item:

14. Provide a detail of the bird-safe glass treatment to be used.

Please contact Bill Sullivan of the Madison Fire Department at (608) 261-9658 if you have any questions regarding the following item:

15. The new addition and all areas undergoing a Level II alteration shall be protected with fire sprinklers and fire alarm from the existing fire protection systems. Update zone maps accordingly.

Please contact my office at (608) 261-9632 if you have questions about the following item:

16. There are burial mounds present on the subject site. Prior to final sign-off of this conditional use and issuance of permits, the applicant shall provide evidence that the State of Wisconsin Historical Society has provided any required approvals.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

Please now follow the procedures listed below for obtaining permits for your project:

1. The applicant shall resubmit a PDF copy of the plan set and any other supporting materials that are necessary, as specified in this letter to sprapplications@cityofmadison.com. (Note: A 20MB email limit applies and multiple transmittals may be required.). A check for the site plan review fee shall be mailed to the City of Madison Building Inspection Division; PO Box 2984; Madison, WI 53701-2984.
2. City Agencies who submitted conditions of approval will review your revised plans to verify that their conditions, along with any applicable requirements, have been satisfied. When the revised plans are submitted, the applicant will be emailed a hyperlink to a website to follow, in real time, which agencies have reviewed the revised documents, and signed off or need additional information.
3. This letter shall be signed by the applicant and property owner (if not the applicant) to acknowledge the conditions of approval and returned to the Zoning Administrator when requesting building permit approval. [Signature block on last page]
4. No alteration of this proposal shall be permitted unless approved by the Plan Commission, provided, however, the Zoning Administrator may issue permits for minor alterations. No alteration of a conditional use shall be permitted unless approved by the Plan Commission provided, however, the

Zoning Administrator following consideration by the alderperson of the district, may approve minor alterations or additions which are approved by the Director of Planning and Community and Economic Development and are compatible with the concept approved by the Plan Commission and the conditional use standards. This approval shall become null and void one (1) year after the date of the Plan Commission unless the use is commenced, construction is under way, or a valid building permit is issued and construction commenced within 6 months of the issuance of said building permit. Where the plans have not been altered from the Plan Commission's approval, and the conditional use has expired, the Director of Planning and Community and Economic Development may, after consultation with the Alderperson of the District, approve an extension for up to 24 months from the expiration date. The Plan Commission shall retain jurisdiction over this matter for the purpose of resolving complaints against the approved conditional use permit.

If you have any questions regarding obtaining your building permits, please contact the Zoning Administrator at (608) 266-4551. If you have any questions or if you may be of any further assistance, please do not hesitate to contact my office at (608) 261-9632 or tparks@cityofmadison.com.

Sincerely,

Timothy M. Parks
 Planner

cc: Tim Troester, City Engineering Division
 Sean Malloy, Traffic Engineering Division
 Jacob Moskowitz, Asst. Zoning Administrator
 Bill Sullivan, Madison Fire Department

I hereby acknowledge that I understand and will comply with the above conditions of approval for this project.

Signature of Applicant
