1	2021 RES-359
2	
3	AUTHORIZING AN EXTENSION OF LTE HOURS IN
4	THE DEPARTMENT OF PUBLIC HEALTH MADISON DANE COUNTY
5	
6	Since the outbreak of the COVID-19 pandemic in Dane County, the Public Health Madison Dane County
7	(PHMDC) has been providing critical services to the public, county departments and other governmental
8	entities. In order to provide these services, Public Health employs a number of limited term employees
9	(LTEs) throughout the department. The roles that LTEs fill include Disease Interventional Specialists,
10	COVID-19 Response Specialists, Vaccine Response Specialists, LTE Supervisors, LTE Public Health Nurses,
11	and Program Coordinators. LTEs provide key support to all aspects of the COVID-19 response, including
12	contact tracing and disease investigation, COVID-19 testing, COVID-19 vaccine administration,
13	communications, data entry, and administrative support work related to the response. The majority of
14	LTEs working for PHMDC were trained in their roles in 2020 and have continued to perform their roles to
15	date in 2022.
16	
17	While there has been significant progress in the fight against COVID-19, the pandemic is not over, as
18 19	we've learned with the current surge in cases from the Omicron variant. As PMHDC continues to respond to COVID-19, LTEs continue to be essential members of the workforce and PHMDC anticipates needing
20	additional support from these LTEs through the end of the 2022 calendar year.
20	additional support norm these LTES through the end of the 2022 calendar year.
22	Dane County's Civil Service Ordinance, section 18.16(1)(a), limits limited term employees to 1,200 hours
23	per year. PHMDC is requesting that the County Board permit current LTEs to exceed 1200 hours in the
24	payroll year 2022. Extending LTE hours in 2022 is cost effective and efficient for PHMDC and the County
25	and will provide surge support should we fluctuations in disease spread over the course of the year.
26	PHMDC has received sufficient COVID-19 emergency funds from the State of Wisconsin and federal
27	government to support additional hours up to 2080 hours per LTE for the remainder of this year. The
28	total number of hours worked by each LTE will correlate with the level and rate of spread of COVID-19 in
29	Dane County.
30	
31	NOW, THEREFORE, BE IT RESOLVED that pursuant to Wis. Stat. § 323.14, the Dane County Board of
32	Supervisors grants an exception to Ordinance 18.16 (1)(a) to allow all LTE positions in the Department of
33	Public Health Madison and Dane County to exceed 1,200 hours in the 2022 payroll year.
