Please postpone the development of this parcel until the effect of the F-35s is known as well as the need for parks and the need for community/urban farming acreage is increased.

hi Plan Commission members,

Thank you for all of the efforts you make to make Madison work well and benefit its residents.

Regarding the Raemisch Farm - give this time, please. I live on the North side of Madison and am very impressed with the level of involvement and concern for the various open spaces that are currently experiencing changes that will affect the Northside, its residents, and the entire city.

The decision about the future of the Raemisch Farm is a no-going-back decision. I am urging the Commission to give the Raemisch Farm Work Group more time to consider the many factors that Northside residents will live with in the future. The open land/environment, housing concerns, the airport and possible F-35 presence, the nearby School Forest, the neighbors, and traffic patterns are factors that merit a careful and deliberative process. Please postpone approval of the Raemisch Farm zoning and plat.

Thank you for considering my comments.

Sincerely,

Susan McMurray

My name is Lindsey Hernke and I live right next to the farm that is looking to be reformed. I wanted to express my sincere concerns to add more living. My son goes to Gompers Elementary and some of his friends go to Lakeview School. Right now my son is feeling overwhelmed by the amount of classmates he has compared to the staff. Adding more to this area would be a huge mistake to the welfare of the students and impact their learning greatly. We as a community need to think about the community we already have and making sure we thrive.

Sincerely,
Concerned citizen.
