Street Tree Report – Land Use Application

In exercising its responsibility under the foregoing ordinances and Department Of Public Works construction specifications, the Forestry Section requires the applicant to submit a Street Tree Report from a certified arborist. The Forestry Section will evaluate the report below for street tree protection during construction activities, proposed tree removals and deposits for developers’ agreements as part of the forestry approval process. If it is necessary to remove a street tree, a separate permit from Forestry will be required. The Forestry Section must be informed of any change in this information as it could impact the Forestry Section’s report and approval.

Please note on the **proposed plan** any pruning beyond what is considered to be acceptable by **ANSI A300 pruning standards** or if street tree removal may be necessary due to the impacts of construction, staging/delivery areas, or other activities.

SECTION 1 – APPLICANT AND CERTIFIED ARBORIST INFORMATION

APPLICANT

NAME Threshold Development
BUSINESS PHONE 415-260-0113 CELL PHONE 415-260-0113 EMAIL Tyler Krupp tnkrupp@gmail.com
MAILING ADDRESS 1952 Atwood Ave
CITY Madison STATE WI ZIP 53704

CONSULTING CERTIFIED ARBORIST

NAME Richard Bruce Allison CERTIFIED ARBORIST NUMBER WI 176B

SECTION 2 – STREET TREE INVENTORY AND CONSTRUCTION IMPACT

STREET TREE NUMBER	Tree Species (Common Name)	Trunk Diameter (DBH)	Canopy Spread (Ft)	Trunk/Roots: General Structure/Health/ Condition	Removal (R) Requested by Applicant? (Yes or No) <i>*Photos required*</i>	Pruning by City Forestry requested (Yes or No). Note: Any Pruning must follow ANSI A300 Standards.	What are the impacts of proposed building? i.e., construction, staging, underground vaults, concrete pumps, scaffolding, new underground utilities, etc.	What are the earth retention impacts to the street trees?
1	Linden	12 inches	16 ft.	condition poor with problematic root structure - severe line clearance pruning with asymmetric crown shape. Girdling roots with surface roots growing at tangents. Trunk entry into ground distorted indicating root compression	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	root plate and majority of critical root zone outside soil disturbance area	negligible with fencing
2	Honeylocust	4 inches	5 feet	young tree good condition	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	none	none with fencing
3	Kentucky Coffeetree	1.5 inches	4 feet	recent planting, good condition	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	none	none with fencing
4	Honeylocust	1.5 inches	4 feet	recent planting with nursery label good condition	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	none	none with fencing
5					<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Yes <input type="checkbox"/> No		
6					<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Yes <input type="checkbox"/> No		
7					<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Yes <input type="checkbox"/> No		
8					<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Yes <input type="checkbox"/> No

9					<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Yes <input type="checkbox"/> No		
10					<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Yes <input type="checkbox"/> No		

Please attach a **plan** of the proposed project site that includes street trees corresponding to the street tree listed in Section 2 of Street Tree Inventory.

Additional notes:

The linden is on Dunning Street. Running from east to west on Linden Street there is a honey locust (Tree #2), a Kentucky Coffeetree (Tree #3 and a honey locust (Tree #4)

Describe impacts and any mitigation actions employed:

Due to the severe utility line clearance pruning and girdling roots, the City may consider replacing linden with appropriate under-utility line species. The smaller size of the trees and location of soil disturbance on the far side of the sidewalk will protect the trees from construction impact assuming typical tree protection fencing keeping all construction traffic off the 6 feet side lawn terrace area

SECTION 3 – PHOTO DOCUMENTATION

Please attach photos. The group of photos must include:

- A photo to best depict the street tree relative to the proposed project.
- Date and timestamp of when photo was taken.

SIGNATURE CERTIFICATION

I hereby certify that I have presented an accurate and truthful representation of the proposed building and construction impacts to City street trees and a complete inventory of affected street trees and their condition herein, and that I will update this information and this report should any of this information change. I have worked to ensure compliance with all accepted professional standards in arboricultural practices and to ensure compliance with all applicable laws, regulations, policies and ethical standards. In the event the contractor has failed to comply with all applicable laws, regulations, policies and ethical standards; or created conditions that may present a hazard to people or property, I have immediately notified the appropriate representative of City of Madison Forestry Section at (608)266-4816.
