

We would like to have live music inside our coffee shop, and also in our grass patio area to the west of our building. Our inside square footage is 1746. Our legal occupancy is 88. Outside, we have seating for 100. The area is roped off with a chain fence.

We do our live music Friday nights 6-8pm and Sunday mornings 10-12pm throughout the summer until October 30th, 2022. Most of our performers are single or duo acoustic acts.

During the music performances, we will have 8 people on staff. Two of these people will be in management positions. All of our full-time employees (6 people) also have their bartending license. All of our staff are trained in identifying fake IDs. We use wristbands to identify people who are 21+.
