Good morning,

I would like to log a public comment for the May 11 Transportation meeting. Below is my comment:

I have noted that the location of the potential speed hump would be closer to Lanett Circle. While I am 100%, supportive of a much needed speed hump, I think a better location would be the middle of Kroncke Drive, near 5737 Kroncke Drive. Placing a speed hump in the middle will help reduce speeding on the entire length of the road, rather than on one side.

Thank you for your consideration.

Allison
