

Lake Monona Waterfront
Draft RFQ Consultant Team Interview Questions
06-21-22

Proposed Questions:

1. What would be your method of organizing the input and work of the other organizations on your team as you create the master plan?
2. Describe the diversity of your team and within your company? Have you taken any steps to increase diversity within your organization and within the Monona Waterfront competition team?
3. How often have you worked with the other members of your team?
4. A defining characteristic of the Lake Monona Waterfront project area is that it encompasses a key segment of the city's multimodal transportation network (the Capital City Trail Path). What past experiences or projects will inform how your team tackles the multimodal transportation aspect of the Lake Monona Waterfront project?
5. Do you see an opportunity to reduce water pollution in Monona Lake and restore the ecosystem within this project?
6. What adverse impact could climate change have on this project, and what solutions would you propose?
7. Your submission's weakest section was ____ (where you earned XX% of total points). Please take a few minutes to demonstrate your team's abilities, strengths and approach relating to this section, with particular focus on aspects that Committee members might not have appreciated when reviewing the submitted materials.
8. What issue do you find most challenging with respect to this project, and what will your team do and need to address the challenge successfully?
9. Tell us about a project that did not turn out as expected and what you learned from that? Ex- Something that looked great on master plan concept but did not translate into what expected when built?
10. How do you synthesize disagreement or discord between input from the public and/or your client (City)? Give an example.
11. What are the two or three most important factors you consider to create a space that is used and loved by people?
12. Pick one project you have done that you think is most similar to LMW. Why?

13. What blind spots are we not seeing for this project based on your experience?
