

Proposed Bus Stop Closures

August 23, 2023

Summary: Metro proposes to close these bus stops along the east-west BRT route with the December 2023 service change. These bus stop closures have been planned as part of the original BRT process approved previously, and will be impossible to serve in 2024 when the bus rapid transit project begins service. Closing these stops now will help current Routes A and B operate more smoothly and stay on time. Metro will post signs and make appropriate notifications several weeks prior to removing the stops.

Nine bus stop locations will remain along the east-west BRT corridor which are not at future BRT stations, and will close in late 2024.

Bus Stop	Westbound Stop ID	Eastbound Stop ID	Notes
Mineral Point and Randolph	6984	6349	
MPR and Yellowstone	6516	6129	
Whitney and South Hill	2684	2249
