### **URBAN DESIGN COMMISSION APPROVAL PROCESS**

### Introduction

The City of Madison's Urban Design Commission (UDC) has been created to:

- Encourage and promote high quality in the design of new buildings, developments, remodeling, and additions so as to maintain and improve the established standards of property values within the City.
- Foster civic pride in the beauty and nobler assets of the City, and in all other ways possible assure a functionally efficient
  and visually attractive City in the future.

### **Types of Approvals**

There are three types of requests considered by the UDC:

- <u>Informational Presentation</u>. A request for an Informational Presentation to the UDC may be requested prior to seeking any approvals to obtain early feedback and direction before undertaking detailed design efforts. Applicants should provide details on the context of the site, design concept, site and building plans, and other relevant information to help the UDC understand the proposal and provide feedback. (Does not apply to CDR's or Signage Modification requests)
- <u>Initial Approval</u>. Applicants may, at their discretion, request Initial Approval of a proposal by presenting preliminary design information. As part of their review, the Commission will provide feedback on the design information that should be addressed at Final Approval stage.
- <u>Final Approval</u>. Applicants may request Final Approval of a proposal by presenting all final project details. Recommendations or concerns expressed by the UDC in the Initial Approval must be addressed at this time.

### **Presentations to the Commission**

The Urban Design Commission meets virtually via Zoom, typically on the second and fourth Wednesdays of each month at 4:30 p.m. Applicant presentations are strongly encouraged, although not required. Prior to the meeting, each individual speaker is required to complete an online registration form to speak at the meeting. A link to complete the online registration will be provided by staff prior to the meeting. Please note that individual presentations will be limited to a **maximum of three (3) minutes**. The pooling of time may be utilized to provide one speaker more time to present, however the additional time will be based on the number of registrants from the applicant team, i.e. two (2) applicant registrants = six (6) minutes for one (1) speaker.

Primarily, the UDC is interested in the appearance and design quality of projects. Emphasis should be given to the site plan, landscape plan, lighting plan, building elevations, exterior building materials, color scheme, and graphics. Please note that presentation slides, in a PDF file format, are required to be submitted **the Friday before** the UDC meeting.

### **URBAN DESIGN DEVELOPMENT PLANS CHECKLIST**

The items listed below are minimum application requirements for the type of approval indicated. Please note that the UDC and/or staff may require additional information in order to have a complete understanding of the project.

1. Info	rma	tional Presentation

driveways, and right-of-ways

### 5. Required Submittal Materials

### **Application Form**

• A completed application form is required for <u>each</u> UDC appearance. For projects also requiring Plan Commission approval, applicants must also have submitted an accepted application for Plan Commission consideration prior to obtaining any formal action (Initial or Final Approval) from the UDC.

### Letter of Intent

- If the project is within an Urban Design District, a summary of how the development proposal addresses the district criteria is required.
- For signage applications, a summary of how the proposed signage is consistent with the applicable Comprehensive Design Review (CDR) or Signage Modification review criteria is required.

Development Plans (Refer to checklist on Page 4 for plan details)

Filing Fee (Refer to Section 7 (below) for a list of application fees by request type)

### **Electronic Submittal**

- Complete electronic submittals <u>must</u> be received prior to the application deadline before an application will be scheduled for a UDC meeting. Late materials will not be accepted. All plans must be legible and scalable when reduced. Individual PDF files of each item submitted should be submitted via email to <u>UDCapplications@cityofmadison.com</u>. The email must include the project address, project name, and applicant name.
- Email Size Limits. Note that <u>an individual email cannot exceed 20MB</u> and <u>it is the responsibility of the applicant</u> to present files in a manner that can be accepted. Applicants who are unable to provide the materials electronically should contact the Planning Division at (608) 266-4635 for assistance.

### **Notification to the District Alder**

• Please provide an email to the District Alder notifying them that you are filing this UDC application. Please send this as early in the process as possible and provide a copy of that email with the submitted application.

•	App	plicant Declarations					
	1.	Prior to submitting this application, the applicant is required to discontinuous discussed with					
	2.	The applicant attests that all required materials are included in this submittal and understands that if any required information is not provided by the application deadline, the application will not be placed on an Urban Design Commission agenda for consideration.					
	Nan	ne of applicant	Relationship to property				
	Autl	norizing signature of property owner	Date				
	_						

### 7. Application Filing Fees

6

Fee payments are due by the submittal date. Payments received after the submittal deadline may result in the submittal being scheduled for the next application review cycle. Fees may be paid in-person, via US Mail, or City drop box. If mailed, please mail to: City of Madison Building Inspection, P.O. Box 2984, Madison, WI 53701-2984. The City's drop box is located outside the Municipal Building at 215 Martin Luther King, Jr. Blvd. on the E Doty Street side of the building. Please make checks payable to City Treasurer, and include a completed application form or cover letter indicating the project location and applicant information with all checks mailed or submitted via the City's drop box.

Please consult the schedule below for the appropriate fee for your request:

Urban Design Districts: \$350 (per §33.24(6) MGO).

Minor Alteration in the Downtown Core District (DC) or Urban Mixed-Use District (UMX) : \$150

(per §33.24(6)(b) MGO)

Comprehensive Design Review: \$500

(per §31.041(3)(d)(1)(a) MGO)

Minor Alteration to a Comprehensive Sign Plan: \$100 (per §31.041(3)(d)(1)(c) MGO)

All other sign requests to the Urban Design Commission, including, but not limited to: appeals from the decisions of the Zoning Administrator, requests for Sign Modifications (of height, area, and setback), and additional sign code approvals: \$300 (per §31.041(3)(d)(2) MGO)

A filing fee is not required for the following project applications if part of the combined application process involving both Urban Design Commission and Plan Commission:

- Project in the Downtown Core District (DC), Urban Mixed-Use District (UMX), or Mixed-Use Center District (MXC)
- Project in the Suburban Employment Center District (SEC), Campus Institutional District (CI), or Employment Campus District (EC)
- Planned Development (PD): General Development Plan (GDP) and/or Specific Implementation Plan (SIP)
- Planned Multi-Use Site or Residential Building Complex

July 28, 2023

Letter of Intent – Johnson Financial Group 448 S. Gammon Rd

Dear Urban Design Commission,

Johnson Financial Group (JFG) would like to renovate the building located at 448 S. Gammon Rd. The property is an out lot of the overall Westpointe Mall property and is currently zoned RMX (Regional Mixed Use). We are working with the Planning Department to renew the Conditional Use Permit for the property. The property was previously occupied by a bank but is now vacant. Johnson Financial Group will be operating the building as a retail bank branch. Johnson Financial Group intends to operate the branch Monday-Friday 8:30am to 5:00pm and Saturdays 9 am-12:00pm. The branch will be operated by 6 employees.

Johnson Financial Group intends to renovate the building to be more presentable and meet their design standards. The renovation will include a renovation of the interior space but will also include updating the exterior of the building with more windows, new materials, and a new aesthetic that we feel will enhance the overall building and site. Exterior materials for the building will include brick and stone veneer, faux wood aluminum siding and aluminum composite panels. In order to improve the design of the current building, JFG intends on removing the existing roof overhangs and constructing a new parapet to hide the (2) existing mechanical roof top units that are visible from the street.

Johnson Financial Group intends to maintain as much of the current parking lot as possible. Site work will be limited to the area adjacent to the existing building where we intend to demolish a small 37 sq ft bump out on the west elevation and build a new larger entrance on the east elevation which is approximately 35 sq ft. The property has an existing drive-thru teller canopy that will remain along with access to 2 ATM machines. Both ATM locations were previous ATM locations on the site. Site work will also include a new trash enclosure in the Northwest corner and will be back-to-back with the Chick-fil-A trash enclosure.

Johnson Financial Group also intends on removing all foundation plantings around the building and replacing them with new shrubs and perennials. The 2 existing trees in the southern parking lot will remain.

Johnson Financial Group will also be updating some of the site lighting. There are currently two light posts by the front entry that will be removed and replaced with one new light pole. Additional new light also includes new lighting in the new entry canopy, new egress lighting at two exterior exit doors and new lighting at the drive-thru teller canopy. The new lighting does not increase the light levels at the property line.

Sincerely,

Brent Hess | SVP, Director Facilities

Johnson Financial Group

SITE ADDRESS

448 S. Gammon Road, Madison, Dane County, Wisconsin.

LEGAL DESCRIPTION

Lot 3 of Certified Surevy Map No. 13442, Part of Lot 2 of Dane County Certified Survey Map Number 3422 and lands being part of the Northeast 1/4 if Section 26, Township 7 North, Range 8 East, City of Madison, Dane County, Wisconsin.

### BASIS OF BEARINGS

-Revised per CSM note, all bearings are referenced to the Wisconsin County Coordinate System, Dane County Zone. The E. Line of the NE 1/4 of Section 26, T 7 N, R 8 E, is measured to bear S01°18'41"W, per CSM 13442. -Vertical Datum is based North American Vertical Datum of 1988

### MUNICIPAL ZONING

The zoning information noted below is taken from the municipal code ordinance. It does not reflect all zoning restrictions that may apply. It is not intended to be used in lieu of a comprehensive zoning report as stated in ALTA Table A item 6(a) nor to be relied on for site development purposes.

Municipal Code: Sec. 28.069

Site is zoned: RMX (Regional Mixed Use)

Front setback: Min. of 50% of street-facing building shall be set back no more than 25' Side setback: None

Rear setback: The lesser of 20% of lot depth or 20 feet

Maximum building height: 5 stories/78 feet

FLOOD NOTE According to the flood insurance rate map of the County of Dane, see Community Panel No. 550250395G,

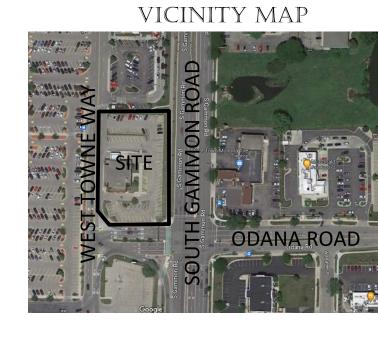

effective date of January 2, 2009, not printed.

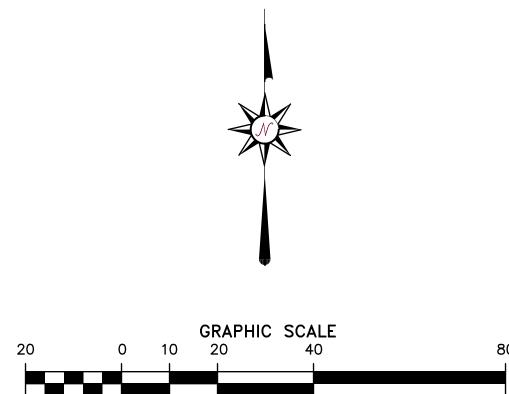

LAND AREA

The Land Area of the subject property is 50,435 square feet or 1.1578 acres.

There are 79 regular parking spaces and 4 handicap space marked on this site.

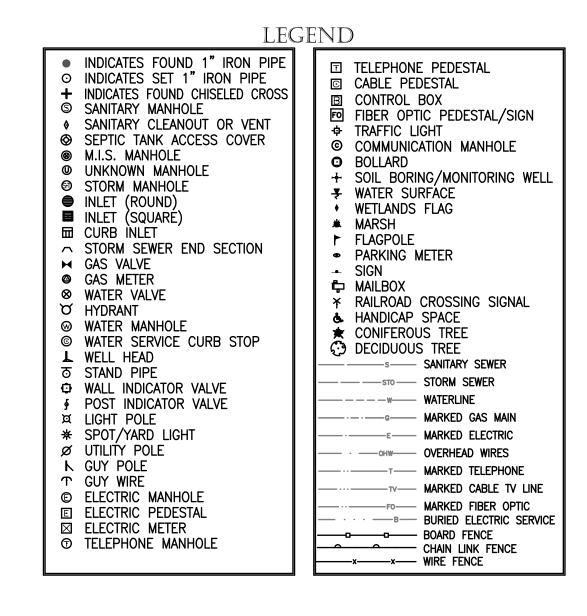

NOTE: Inlet 6413 is full of debris.

( IN FEET )

1 inch = 20 ft.

I Certify that I have surveyed the above described property (Property), and the above map is correct to the best of my professional knowledge and belief and shows the size and location of the Property, its exterior boundaries, the location and dimensions of all visible structures thereon, boundary fences, apparent easements and roadways and visible encroachments, if any. This survey is made for the exclusive use of the present owners of the Property, and also those who purchase, mortgage, or guarantee the title thereto, within one (1) year from date hereof.

**OVERALL** LANDSCAPE PLAN

	OVERALL LANDSCAPE PLA	<u>N</u>
NORTH	Scale: 1" = 16'0"	

PROJECT MANAGER 23-041 PROJECT NUMBER 07.28.23 DATE SHEET NUMBER

- 1. Contractor responsible for contacting Diggers Hotline (811 or 800-242-8511) to have site marked prior to excavation or planting.
- 2. Contractor to verify all plant quantities shown on Plant & Material List and landscape planting symbols and report any discrepancies to Landscape Architect or General Contractor.
- 3. All plantings shall comply with standards as described in American Standard of Nursery Stock Z60.1 ANSI (latest version). Landscape Architect reserves the right to inspect, and potentially reject any plants that are inferior, compromised, undersized, diseased, improperly transported, installed incorrectly or damaged. No sub-standard "B Grade" or "Park Grade" plant material shall be accepted. Plant material shall originate from nursery(ies) with a similar climate as the planting site.
- 4. Any potential plant substitutions must be approved by Landscape Architect or Owner. All plants must be installed as per sizes indicated on Plant & Material Schedule, unless approved by Landscape Architect. Any changes to sizes shown on plan must be submitted in writing to the Landscape Architect prior to installation.
- 5. Topspoil in Parking Lot Islands (if applicable): All parking lot islands to be backfilled with topsoil to a minimum depth of 12" to insure long-term plant health. Topsoil should be placed within 3" of finish grade by General Contractor / Excavation Contractor during rough grading operations/activity. The landscape contractor shall be responsible for the fine grading of all disturbed areas, planting bed areas, and lawn areas. Crown all parking lot islands a minimum of 4" to provide proper drainage, unless otherwise specified.
- 6. Tree Planting: Plant all trees slightly higher than finished grade at the root flare. Remove excess soil from the top of the root ball, if needed. Remove and discard non-biodegradable ball wrapping and support wire. Removed biodegradable burlap and wire cage (if present) from the top  $\frac{1}{3}$  of the rootball and carefully bend remaining wire down to the bottom of the hole. Once the tree has been placed into the hole and will no longer be moved, score the remaining  $\frac{2}{3}$  of the burlap and remove the twine. Provide three slow release fertilizer for each tree planted.
- 7. Tree Planting: Backfill tree planting holes 80% existing soils removed from excavation and 20% plant starter mix. Avoid air pockets and do not tamp soil down. Discard any gravel, rocks, heavy clay, or concrete pieces. When hole is  $\frac{2}{3}$  full, trees shall be watered thoroughly, and water left to soak in before proceeding to fill the remainder of the hole. Water again to full soak in the new planting. Each tree shall receive a 3" deep, 4-5' diameter (see planting details or planting plan) shredded hardwood bark mulch ring around all trees planted in lawn areas. Do not build up any mulch onto the trunk of any tree. Trees that are installed incorrectly will be replaced at the time and expense of the Landscape Contractor.
- 8. Shrub Planting: All shrubs to be planted in groupings as indicated on the Landscape Plan. Install with the planting of shrubs a  $\frac{50}{50}$  mix of plant starter with topsoil. Install topsoil into all plant beds as needed to achieve proper grade and displace undesirable soil (see planting detail). Remove all excessive gravel, clay and stones from plant beds prior to planting. When hole(s) are  $\frac{2}{3}$  full, shrubs shall be watered thoroughly, and water left to soak in before proceeding. Provide slow-release fertilizer packets at the rater of 1 per 24" height/diameter of shrub at planting.
- 9. Mulching: All tree and shrub planting beds to receive a 3" deep layer of high quality shredded hardwood bark mulch (not pigment dyed or enviro-mulch). All perennial planting areas (groupings) shall receive a 2" layer of double-shredded hardwood bark mulch, and groundcover areas a 2" layer of the same mulch. Do not mulch annual flower beds (if applicable). Do not allow mulch to contact plant stems and tree trunks.
- 10. Edging: All planting beds shall be edged with a 4" deep spade edge using a flat landscape spade or a mechanical edger. Bedlines are to be cut crisp, smooth as per plan. A clean definition between landscape beds and lawn is required. Pack mulch against lawn edge to hold in place.
- 11. Plant bed preparation/Soil Amendment composition: All perennial, groundcover and annual areas (if applicable) are required to receive a blend of organic soil (Soil Amendments) amendments prior to installation. Roto-till the following materials at the following ratio, into existing soil beds or installed topsoil beds to a depth of approximately 8"-10". Containerized and balled & burlapped plant material should be back-filled with amended soil:

Per 100 SF of bed area (Soil Amendment composition):

- 3/4 CY Peat Moss or Mushroom Compost
- 3/4 CY blended/pulverized Topsoil ½ CY composted manure
- In roto-tilled beds only, also include in above mixture: 2 lbs Starter Fertilizer
- 12. Lawn Installation for all sodded turfgrass areas: Contractor to furnish and prepare blended topsoil (2" minimum) and sod bed, removing all debris and stones ½" and larger. Apply a 10-10-10 starter lawn fertilizer uniformly throughout areas prior to laying sod. Use only premium sod blend according to TPI (revised 1995) and ASPA Standards. Install sod uniformly with staggered joints, laid tightly end to end and side to side. Roll sod with a walk behind roller and water immediately upon installation to a 3" depth. Stake any sod installed on slopes steeper than 1:3, and in all swale applications. Contractor is responsible to provide a smooth, uniform, healthy turf, and is responsible for the first two mowings of the newly installed turf, and is also responsible for watering during this
- 13. Warranty and Replacements: All plantings are to be watered thoroughly at the time of planting, through construction and upon completion of project as required. Trees, Evergreens, and Shrubs (deciduous and evergreen) shall be guaranteed (100% replacement) for a minimum of one (1) year from the date of project completion. Perennials, groundcovers, and ornamental grasses shall be guaranteed for a minimum of one (1) growing season. Perennials, groundcovers, and ornamental grasses planted after September 15th shall be guaranteed through May 31st of the following year. Only one replacement per plant will be required during the warranty period, except for losses or replacements due to failure to comply with specified requirements. Watering and general ongoing maintenance instructions are to be supplied by the Landscape Contractor to the Owner upon completion of the project.
- 14. The Landscape Contractor is responsible for the watering and maintenance of all landscape areas for a period of 45 days after the substantial completion of the landscape installation. This shall include all trees, shrubs, evergreens, perennials, ornamental grasses, turf grass, no-mow grass, and native prairie seed mix, stormwater seed mix, and other native seed mixes. Work also includes weeding, edging, mulching (only if required), fertilizing, trimming, sweeping up grass clippings, pruning and deadheading.
- 15. Project Completion: Landscape Contractor is responsible to conduct a final review of the project, upon completion, with the Landscape Architect, Client or Owner / Client Representative, and the General Contractor to answer questions, provide written care instructions for new plantings and turf, and insure that all
