Dear Council members,

I'm writing today because it's city budget season and I want to see the City invest in the measures that meet our community's needs.

Specifically, I'm writing to urge you to significantly expand staffing, staff pay, and hours of operation for CARES by redistributing money from the police budget. I'm also writing in support of the proposed amendment to invest \$275,000 in CARES. If we want to undo decades of damning statistics about our racist policing and incarceration, if we want to build a future in this community for everyone, we need our common council to make a serious commitment to alternatives to policing and the status quo.

I would also like to see the City make significant and robust investments in our youth by increasing funding for our neighborhood centers, youth programs, and youth workers. We know that real safety begins with the love and care of our youth. And we know that youth need our clear-eyed and open-hearted investment, not the ongoing harm of being policed and not youth programs led by police.

At minimum, I'd like to see the Common Council direct the proposed \$77,000 in neighborhood centers and youth workers.

Thank you for your time,

Megan Barry-Luglio

Dear alders,

I am writing to express my support for budget amendments that seek funding for three new vehicles for the CARES team and a salary for an on staff traffic engineer. I believe these are important steps for our city and a good use the funds.

Alder Field is my representative.

/ Robert

Glenn Reinl

1241 Morrison Court

Madison, Wisconsin. 53703 Yes, by email. glennreinl@charter.net All Alders CARES program I strongly urge you to support the addendum to add funds for the additional employees to increase the funding for the CARES program. It will increase the care that we give to mental health challenged individuals in our community...and throughout Dane County, by allowing other municipalities to access help through the Dane County funding. I expect that it will allow us, as a city, to also reduce our police funding, in the long run. Thanks so much for your consideration. Glenn Reinl
