Recycling Plan

Address:
204 W. Sunset Ct.
Madison, WI 53705

Applicant Name: Leif Backus- Associated Housewrights
Property Owners: Erin and Todd Courtenay

Dear Plan Commission,

Please be advised that Associated Housewrights intends to recycle as much as possible from the subject wall being considered for a demolition permit. While the studs and sheathing are wood, the existing siding is aluminum which will be recycled (along with siding from the rest of the house). Additionally, we plan to use as much demolished existing concrete as possible, as fill under the new garage slab.

Sincerely,
Leif B. Backus, Architect
