RE: Consideration of a demolition permit to demolish a single-family residence at 531 W Mifflin Street; Consideration of a conditional use in the Downtown Residential 2 (DR2) District for a residential building complex containing a four-unit apartment building and a single-family residence; and Consideration of a conditional use to reduce the zoning rear yard setback requirements of a residential building complex at 531 W Mifflin Street. [LNDUSE-2023-00090; ID [81079](#) and [81080](#)]

Dear Kevin;

At its February 5, 2024 meeting, the Plan Commission **approved** your client's demolition permit and conditional use requests for the project located at 531 W Mifflin Street. Prior to issuance of demolition or building permits for the project, the conditions of approval in the following sections shall be satisfied:

Please contact Timothy Troester of the City Engineering Division–Main Office at (608) 267-1995 if you have any questions regarding the following ten (10) items:

1. Revise plan set to show more information on proposed drainage for the site. Use either spot elevations and drainage arrows or proposed contours to show the required drainage information. It is necessary to show the location of drainage leaving the site to the public right-of-way. It may be necessary to provide information off the site to fully meet this requirement. (POLICY)
2. This area is within a watershed study for flood mitigation and has a known flooding risk. The minimum opening elevations for structures proposed by this application shall have a low entrance elevation that is a minimum of 2' above the adjacent sidewalk elevation. The stated elevation is intended to be protective but does not guarantee a flood proof structure. The Developer/Owner are strongly encouraged to complete their own calculations and determine an elevation that protects their property to a level of service that they are comfortable with.
3. Storm discharges shall be directly to the storm system and shall not be discharged to the rear of the site. Discharge to the storm sewer in the street is required.
4. Obtain a permit to Excavate in the Right-of-Way for completing the improvements in the public Right-of-Way. The permit application is available on the City Engineering Division website at <http://www.cityofmadison.com/engineering/Permits.cfm>. As a condition of the permit a deposit to cover estimated City expenses will be required.

5. Obtain a permanent sewer plug permit for each existing sanitary sewer lateral serving a property that is not to be reused and a temporary sewer plug permit for each sewer lateral that is to be reused by the development. The procedures and fee schedule is available online at <http://www.cityofmadison.com/engineering/permits.cfm>. (MGO CH 35.02(14))
6. An Erosion Control Permit is required for this project. See Storm comments for permit specific details and requirements.
7. This site appears to disturb less than one (1) acre of land. No submittal to the WDNR, CARPC or Department of Safety and Professional Services (DSPS) is required as the City of Madison Building Inspection Department is an approved agent for DSPS.
8. Revise the site plan to show all existing public sanitary sewer facilities in the project area as well as the size, invert elevation, and alignment of the proposed service. (POLICY)
9. This project will disturb 4,000 sf or more of land area and require an Erosion Control Permit. Submit the Erosion Control Permit Application (with USLE calculations and associated fee) to Megan Eberhardt (west) at meberhardt@cityofmadison.com, or Daniel Olivares (east) at daolivares@cityofmadison.com, for approval. The permit application can be found on City Engineering's website at <http://www.cityofmadison.com/engineering/Permits.cfm>.

Demonstrate compliance with Section 37.07 and 37.08 of the Madison General Ordinances regarding permissible soil loss rates. Include Universal Soil Loss Equation (USLE) computations for the construction period with the erosion control plan. Measures shall be implemented in order to maintain a soil loss rate below 5.0 tons per acre per year. The WDNR provided workbook to compute USLE rates can be found online at <https://dnr.wi.gov/topic/stormwater/publications.html>

10. Submit, prior to plan sign-off but after all revisions have been completed, digital PDF files to the Engineering Division. Email PDF file transmissions are preferred to: bstanley@cityofmadison.com (East) or ttroester@cityofmadison.com (West).

Please contact Jeffrey Quamme, of the City Engineering–Mapping Section at 266-4097 if you have any questions regarding the following five (5) items:

11. Show, dimension and label the shared driveway easements per Doc No's 1650017 and 1230520.
12. Applicant/Owner/Contractor are collectively responsible for any construction agreement/easement necessary for any disturbance of adjacent properties during the construction/demolition/grading of this proposed redevelopment.
13. A plat of survey by a Professional Land Surveyor shall be provided to assure the boundary has been accurately determined with the tight site conditions proposed.
14. The address of the single-family house that is being relocated is 432 W Dayton St. Correct all appropriate sheets accordingly. The addresses of the two relocated buildings will be determined with the creation of the 4-unit apartment addressing plan. The site plan shall reflect a proper street address of the property as reflected by official City of Madison Assessor's and Engineering Division records.

15. Submit a site plan and a complete building Floor Plan in PDF format to Lori Zenchenko (lzenchenko@cityofmadison.com) that includes a floor plan of each floor level on a separate sheet/page for the development of a complete interior addressing plan for the relocated 438 W Dayton St building. The internal apartment addresses need to be updated to conform to current addressing standards.

The Addressing Plan for the entire project shall be finalized and approved by Engineering (with consultation and consent from the Fire Marshal if needed) PRIOR to the verification submittal stage of this LNDUSE with Zoning.

The final approved stamped Addressing Plan shall be included in said Site Plan Verification application materials or a revised plan shall provided for additional review and approval by Engineering.

Per 34.505 MGO, a full copy of the approved addressing plan shall be kept at the building site at all times during construction until final inspection by the Madison Fire Department.

For any changes pertaining to the location, deletion or addition of a unit, or to the location of a unit entrance, (before, during, or after construction), a revised Address Plan shall be resubmitted to Lori Zenchenko to review addresses that may need to be changed and/or reapproved.

Please contact Trent Schultz of the Parking Division at (608) 246-5806 if you have any questions regarding the following item:

16. The agency reviewed this project and determined a Transportation Demand Management (TDM) Plan is not required.

Please contact Jenny Kirchgatter of the Zoning Division at (608) 266-4429 if you have any questions regarding the following five (5) items:

17. The 20-foot required rear yard setback will be reduced. Setback requirements may be reduced as part of the conditional use approval, provided that equivalent open space areas are provided.
18. Section 28.185(9)(b) requires that every applicant for a demolition or removal approval that requires approval by the Plan Commission is required to get a Reuse and Recycling Plan approved by the City Recycling Coordinator, Bryan Johnson at streets@cityofmadison.com prior to receiving a raze permit. Every person who is required to submit a reuse and recycling plan pursuant to Section 28.185(9)(b) shall submit documents showing compliance with the plan within sixty (60) days of completion of demolition. A demolition or removal permit is valid for two (2) years from the date of the Plan Commission approval.
19. Verify that residents of Building 1 shall have access to bicycle parking facilities located in the garage and basement of Building 2.
20. Verify whether exterior building repairs or modifications will be proposed.

21. Per Section 28.186(4)(b), the property owner or operator is required to bring the property into compliance with all elements of the approved site plans by the date established by the Zoning Administrator as part of the site and building plan approval. Work with Zoning staff to establish a final site compliance date.

Please contact Matt Hamilton of the Madison Fire Department at (608) 266-4457 if you have any questions regarding the following item:

22. A fire alarm system and/or automatic fire suppression systems are/may be required. Ensure contractors submit applications for work permits along with construction documents for all fire protection and/or life safety systems as specified in MGO 34.02, to the Madison Fire Department for approval prior to installation. Standpipes may be required to be added if the top floor is greater than 30' from fire dept access once on the new foundation. Existing sprinkler system if being re-used will need to be recalculated for new water supply, riser, etc.

Please contact Brad Hofmann of the Parks Division–Forestry Section at (608) 267-4908 if you have questions regarding the following three (3) items:

23. Madison General Ordinances Section 28.185(7) (a) 5 Requires the PLAN COMMISSION to consider a report of the City Forester regarding the impact a proposed building relocation could have on city street trees, Section 29.12 (2)(a) requires that the City Forester approve the route along which a building will travel, and Section 29.12(2)(f) requires that no tree or shrub be trimmed or disturbed without the approval of the City Forester or property owner. City Forestry will review the Street Tree Report for Building Relocation, for the tree pruning and/or removals impacts. Additional approvals for street tree pruning and removals shall be required from City Forestry in accordance with Madison General Ordinance prior to final sign off. The applicant is advised that a hearing at the Habitat Stewardship Subcommittee shall be necessary.
24. Please see the associated document 'Plan Commission Report of the City Forester 1-31-2024'
25. The developer shall post a security deposit in the amount of \$4,423.98 prior to the start of development. In the event that street trees are damaged during the building move process, City Forestry will draw from this deposit for damages incurred. City Forestry will also be able to draw from this deposit for additional labor cost associated with the building move project.

Please contact Jeff Belshaw of the Madison Water Utility at 261-9835 if you have any questions regarding the following three (3) items:

26. A private well may have served this parcel prior to the municipal water service connection. Any remaining unused/unpermitted private wells existing on this parcel must be properly abandoned according to Wisconsin Administrative Code NR 812 and Madison General Ordinance 13.21 prior to the demolition of the property. Please contact water utility staff at (608) 266-4654 to schedule an on-site private well survey prior to demolition, otherwise for additional information regarding well abandonment procedures and potential well abandonment reimbursement programs. The Madison Water Utility shall be notified to remove the water meter at least two working days prior to demolition. Contact the Water Utility Meter Department at (608) 266-4765 to schedule the meter removal appointment.

27. Update Utility plan to indicate proposed water service size and material.
28. A Water Service Application Form and fees must be submitted before connecting to the existing water system. Provide at least two working days notice between the application submittal and the requested installation or inspection appointment. Application materials are available on the Water Utility's Plumbers & Contractors website (<http://www.cityofmadison.com/water/plumbers-contractors>), otherwise they may be obtained from the Water Utility Main Office at 119 E Olin Ave. A licensed plumber signature is required on all water service applications. For new or replacement services, the property owner or authorized agent is also required to sign the application. A Water Meter Application Form will subsequently be required to size & obtain a water meter establish a Water Utility customer account and/or establish a Water Utility fire service account. If you have questions regarding water service applications, please contact Madison Water Utility at (608) 266-4646.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

No interior, exterior or structural demolition or wrecking activities or remodeling activities (including material reclamation activities by the applicant or a third party) shall commence nor any wrecking or building permits be issued until the applicant has met all of the conditions of approval stated in this letter.

Please now follow the procedures listed below for obtaining permits for your project:

1. After the plans have been revised per the above conditions, please **one (1) complete digital plan set in PDF format** of complete, fully dimensioned, and to-scale plans; [site plan review fee pursuant to Section 28.206](#) of the Zoning Code; and any other documentation requested herein to the Zoning Administrator at SPRApplications@cityofmadison.com. (Note that that an individual email cannot exceed 20MB and it is the responsibility of the applicant to present files in a manner that can be accepted. Please email SPRApplications@cityofmadison.com regarding questions or if you need alternative filing options. The sets of final revised plans or documents will be circulated by Zoning staff to the City department staff listed above for their final approval.
2. The [site plan review fee pursuant to Section 28.206](#) can be mailed in, dropped in the drop box at the Madison Municipal Building, or you can make an appointment at the Zoning counter to pay the fee. Checks should be made out to "City Treasurer." If you mail in the check or use the drop box, please include the application form with the project address and contact information. Zoning staff typically suggest using the drop box or making an appointment with the Zoning counter to pay the fee as they are the quickest.

Mailing Address: City of Madison Building Inspection. P.O. Box 2984. Madison, WI 53701-2984

Drop Box Location: Madison Municipal Building, Doty Street Entrance. 215 Martin Luther King Jr Blvd. Madison, WI 53701-2984

Zoning Counter Appointment: <https://www.cityofmadison.com/dpced/bi/schedule-a-counter-appointment/3423/>

3. This letter shall be signed by the applicant and property owner (if not the applicant) to acknowledge the conditions of approval and returned to the Zoning Administrator when requesting building permit approval. [Signature block on last page]
4. City Agencies who submitted conditions of approval will review your revised plans to verify that their conditions, along with any applicable requirements, have been satisfied. When the revised plans are submitted, the applicant will be emailed a hyperlink to a website to follow, in real time, which agencies have reviewed the revised documents, and signed off or need additional information.
5. Approval of plans for this project does not include any approval to prune, remove or plant trees in the public right-of-way. Permission for such activities must be obtained from the City Forester, (608) 267-4908.
6. A demolition or removal permit is valid for one (2) years from the date of the Plan Commission.
7. No alteration of this proposal shall be permitted unless approved by the Plan Commission, provided, however, the Zoning Administrator may issue permits for minor alterations. No alteration of a conditional use shall be permitted unless approved by the Plan Commission provided, however, the Zoning Administrator following consideration by the alderperson of the district, may approve minor alterations or additions which are approved by the Director of Planning and Community and Economic Development and are compatible with the concept approved by the Plan Commission and the conditional use standards. This approval shall become null and void one (2) years after the date of the Plan Commission unless the use is commenced, construction is under way, or a valid building permit is issued and construction commenced within 6 months of the issuance of said building permit. Where the plans have not been altered from the Plan Commission's approval, and the conditional use has expired, the Director of Planning and Community and Economic Development may, after consultation with the Alderperson of the District, approve an extension for up to 12 months from the expiration date. The Plan Commission shall retain jurisdiction over this matter for the purpose of resolving complaints against the approved conditional use permit.

If you have any questions regarding obtaining your demolition or building permits, please contact the Zoning Administrator at (608) 266-4551. If you have any questions or if may be of any further assistance, please do not hesitate to contact my office at (608) 261-9135.

Sincerely,

Chris Wells
Planner
