Hello,

I plan to present the construction of a bike path on the Northeast Park to the commission members.

A project description: *"The City is planning a bike path project along the Northeast Park (Tancho Drive to Underpass 151) in 2024. The project will include path lighting, replacement of public path, tree removals within wooded areas and improvements on the Tancho Drive crossing."*

Attached is the agenda exhibit.

I am seeking feedback from the commission regarding the path layout.

Thanks,

Nashaly Gutierrez
