Dear Transportation Commissioners,

I am writing to express my support of "Option A" for the Doncaster/Beverly/Danbury street reconstruction project, as proposed by engineering staff. I believe improvements to the road surface, roadway drainage, and sanitary sewer main are all sorely needed.

Option A strikes the correct and appropriate balance between existing tree cover, pedestrian access facilities, parking, traffic calming, and road width in this area.

I do not support Option B nor Option C. Removal of significant tree cover would be unbecoming of the neighborhood. For these minor streets, the drive lane does not need to be especially wide, and sidewalk on both sides of the roadway would be largely superfluous.

Best regards,
Max Schweiner

4257 Beverly Rd
