MEMORANDUM

Date: September 25, 2024

To: Water Utility Board

From: Joseph DeMorett, Water Supply Manager
Krishna Kumar, General Manager

Subject: Water Production Report

BACKGROUND

Board governance policy requires that current and future customers will receive water that meets or exceeds industry-accepted levels of service for fire protection and pressure.

This includes:

1. Water delivered to hydrants at proper flow rates for fire protection.
2. Water delivered to the customer tap at a pressure that meets industry-accepted low, high, and emergency operation criteria.
3. Water used for outdoor irrigation under drought-free conditions.

The Water Supply Section of the Utility strives hard to meet or exceed the expectations laid out above. The Monthly Water Production and Unit Well Cumulative Capacity Utilization Reports as of August 31, 2024, reflecting these efforts are attached.
