Intending on demolishing a single-family home at:

3441 Burke Ave. Madison WI 53714

House sqft: 585

Lot sqft: 6,534

Year built: 1930

The current home was purchased in January 2024 with the intent of repair and remodeling. On discovery of major structural issues, it became aware that it was uneconomical and unsafe to continue.

I will be working with my builder to coordinate demolition and excavation for a new structure which will take place within the six-month permit expiration.
