

Chris,

I have provided a brief summary of each below.

- **Oct 8 Re-Submission:** Includes revised Civil and Architectural drawings to remediate the units/beds and types of unit mix, bed, and units discrepancies among various documents (Applications, Civil Summary Table, Floor Plan). The floor plans were re-issued with minor modifications.
- **Oct 25 Re-Submission:** Addresses recently presented revisions to the Windows (detail/ material). The revised drawings are limited to Elevations and Renderings.

Thanks.
