Madison, Wisconsin 53717

RE: Approval of the final plat of *Reiland Grove* for the first phase of the subdivision, creating 88 single-family lots, 36 lots for two-family residences, one lot for private park, two outlots to be dedicated to the City for stormwater management, and six outlots for future development (VH 902 Reiner, LLC/ Veridian Homes). [ID 90636; LNDSP-2025-00010]

Dear Brett and Dan,

At its January 13, 2026 meeting, the Common Council **approved** the final plat of *Reiland Grove* subject to the conditions of approval in the following sections, which shall be addressed prior to final approval and recording of the final plat.

Please contact Brenda Stanley of the City Engineering Division at (608) 261-9127 if you have questions regarding the following twenty-seven (27) items:

1. A Phase 1 Environmental Site Assessment (ESA) (per ASTM E1527-21), is required for lands dedicated to the City. Provide one (1) digital copy and staff review will determine if a Phase 2 ESA is also required. Submit report(s) to Environmental Review (environmentalreview@cityofmadison.com).
2. Confirm that minimum Intersection Sight Distance is provided where public streets intersect per AASHTO's A Policy on Geometric Design of Highways and Streets Seventh Edition, Section 9.5. This condition is applicable for all public street intersections within the plat and along the plat boundary. If minimum sight distance does not exist at intersections along the plat boundary, change the location of the street intersection, or agree to make improvements to the existing roadways such that the minimum required sight distance is achieved, or make the mitigating improvements as required by the City. The improvements indicated may require right of way outside of the plat. The applicant shall be aware of potential issues meeting Intersection sight distance compliance at the Felland Road and Yellow Canary Street intersection.
3. The applicant shall provide projected wastewater flow to each point of connection (existing sewer mains on Felland Road, Commercial Avenue (future), and Reiner Road (future)). Off-site sewer improvements by the developer will likely be required as a condition for development.

4. The stormwater management plan shall document protection of the low property at the corner of Felland Road and Commercial Avenue. Additionally, peak discharges are limited beyond the limits of MGO Chapter 37 to the capacity of existing culverts under Commercial Avenue and Felland Road. Additionally, for these discharges the peak volume of discharge is further limited beyond the above to matching the 10-year storm volume existing to proposed unless easements over the downstream properties are procured.
5. The developer shall enter into a City/Developer agreement for the required infrastructure improvements. The agreement shall be executed prior to sign-off of the final plat. Allow 4-6 weeks to obtain agreement. Contact the City Engineering Division to schedule the development and approval of the plans and the agreement.
6. The developer shall construct Madison standard street, multi-use path, and sidewalk improvements for all streets within the plat.
7. The developer shall construct sidewalk/multi-use path, terrace, curb, gutter, and pavement along the east side of Felland Road, the west side of Reiner Road, and the north side of Commercial Avenue along the plat frontage per plans approved by the City Engineer. The curb and gutter requirement along Reiner Road and Commercial Avenue can be eliminated if determined by the City Engineer that construction will not be practical due to location, grades, or a combination of both.
8. The applicant shall construct a north-south multi-use path within the plat from Blissful Avenue to the northern boundary of the plat to a plan approved by the City Engineer. This path shall connect to the existing Woods Farm Path with future developments to the north of this plat.
9. The applicant shall construct improvements to Felland Road, Commercial Avenue, and Reiner Road at all intersections with new streets in order to facilitate ingress and egress to the development per a plan approved by the City Engineer.
10. The applicant shall construct public sanitary sewer, storm sewer, and drainage improvements as necessary to serve the lots within the plat.
11. This development is subject to impact fees for the Northeast Neighborhood Sanitary Sewer Improvement Impact Fee District - \$215.00/ 1,000 square-foot (2025 rate). All impact fees are due and payable at the time building permits are issued (MGO Ch. 20). Add the following note on the face of the plat: "Lots/buildings within this development are subject to impact fees that are due and payable at the time building permit(s) are issued."
12. Madison Metropolitan Sewerage District (MMSD) charges are due and payable prior to City Engineering Division sign-off, unless otherwise collected with a Developer's / Subdivision Contract. Contact Mark Moder ((608) 261-9250) to obtain the final MMSD billing a minimum of two (2) working days prior to requesting City Engineering Division sign-off.
13. A minimum of two (2) working days prior to requesting City Engineering signoff on the plat, contact either Tim Troester (West) at (608) 261-1995 (ttroester@cityofmadison.com) or Brenda Stanley (East)

at (608) 261-9127 (bstanley@cityofmadison.com) to obtain the final stormwater utility charges that are due and payable prior to sub-division of the properties. The stormwater utility charges (as all utility charges) are due for the previous months of service and must be cleared prior to the land division (and subsequent obsolesces of the existing parcel).

14. Provide proof of septic system abandonment from Public Health–Madison and Dane County as a condition of plan approval.
15. An Erosion Control Permit is required for this project.
16. A Storm Water Management Report and Storm Water Management Permit is required for this project.
17. This site appears to disturb over one (1) acre of land and requires a permit from the Wisconsin Department of Natural Resources (WDNR) for stormwater management and erosion control. The City of Madison has been required by the WDNR to review projects for compliance with NR-216 and NR-151 however a separate permit submittal is still required to the WDNR for this work. The City of Madison cannot issue our permit until concurrence is obtained from the WDNR via their NOI or WRAPP permit process. Contact Eric Rortvedt at 273-5612 of the WDNR to discuss this requirement. The applicant is notified that the City of Madison is an approved agent of the Department of Safety and Professional Services (DSPS) and no separate submittal to this agency or Capital Area Regional Planning Commission (CARPC) is required for this project to proceed.
18. When subdivision or land divisions are submitted for Outlot 4, construction on Commercial Avenue (CTH T) will be required.
19. Submit a soil boring report that has been prepared by a Professional Engineer two weeks prior to recording the final plat to the City Engineering Division indicating the ground water table and rock conditions in the area. If the report indicates a ground water table or rock condition less than nine (9) feet below proposed street grades, a restriction shall be added to the final plat, as determined necessary by the City Engineer.
20. Provide calculations for the 500-year storm event, as identified in MGO Chapter 37, as part of the plat design and stormwater management plan. The flows from this design storm event will be routed through the development and used to determine an anticipated safe top of concrete foundation elevation for future buildings in critical areas.
21. Submit proposed lot corner grades with the stormwater management plan as these two items must be reviewed together to properly determine stormwater overflow conditions. Prior to the issuance of building permits, submit a master stormwater drainage plan with final as-built lot corner grades. These grades may be modified from the originally proposed grades provided they continue to meet design tolerances. No building permits shall be issued prior to City Engineering Division final approval of this plan.

22. Install a property boundary witness markers along the boundary of lands dedicated for public stormwater purposes at property corners or in locations that are mutually agreeable to the applicant and Engineering Division.
23. This project will disturb 20,000 square feet or more of land area and require an Erosion Control Plan. Please submit an 11- by 17-inch copy of an erosion control plan (PDF electronic copy preferred) to Megan Eberhardt (west) at meberhardt@cityofmadison.com, or Daniel Olivares (east) at daolivares@cityofmadison.com, for approval.
24. Demonstrate compliance with MGO Sections 37.07 and 37.08 regarding permissible soil loss rates. Include Universal Soil Loss Equation (USLE) computations for the construction period with the erosion control plan. Measures shall be implemented in order to maintain a soil loss rate below 5.0 tons per acre per year.
25. Complete weekly self-inspection of the erosion control practices and post these inspections to the City of Madison website as required by MGO Chapter 37.
26. Prior to approval, this project shall comply with MGO Chapter 37 regarding stormwater management. Specifically, this development is required to submit a Storm Water Management Permit application, associated permit fee, Stormwater Management Plan, and Storm Water Management Report to City Engineering. The Stormwater Management Permit application can be found on City Engineering's website. The Storm Water Management Plan & Report shall include compliance with the following:
 - Submit prior to plan sign-off, a stormwater management report stamped by a P.E. registered in the State of Wisconsin.
 - Provide electronic copies of any stormwater management modeling or data files including SLAMM, RECARGA, TR-55, HYDROCAD, Sediment loading calculations, or any other electronic modeling or data files. If calculations are done by hand or are not available electronically, the hand copies or printed output shall be scanned to a PDF file and provided to City Engineering. (POLICY and MGO 37.09(2))
 - Detain the 2-, 5-, 10-, 100-, and 200-year storm events, matching post-development rates to pre-development rates and using the design storms identified in MGO Chapter 37.
 - Provide infiltration of 90% of the pre-development infiltration volume.
 - Reduce TSS by 80% (control the 5-micron particle) off of newly developed areas compared to no controls.
 - Provide onsite volumetric control limiting the post construction volumetric discharge to the predevelopment discharge volume as calculated using the 10-year storm event
 - The applicant shall demonstrate that water can leave the site and reach the public right of way without impacting structures during a 100-year event storm. This analysis shall include reviewing overflow elevations and unintended storage occurring on site when the storm system has reached capacity.
 - Submit a draft Stormwater Management Maintenance Agreement (SWMA) for review and approval that covers inspection and maintenance requirements for any best management practices (BMP) used to meet stormwater management requirements on this project.

27. Submit, prior to plan sign-off but after all revisions have been completed, digital PDF files to the Engineering Division. Email PDF file transmissions are preferred to: bstanley@cityofmadison.com (East) or ttroester@cityofmadison.com (West).

Please contact Julius Smith of the City Engineering Division–Mapping Section at (608) 264-9276 if you have any questions regarding the following nineteen (19) items:

28. The portions of the lands to be conveyed to the adjacent metes and bounds parcels along Felland Road shall be detached from the City of Madison prior to conveying to the adjacent owners to avoid creation of jurisdictional issues for lands intended to be a single parcel.

29. There are remnant lands north and east of this final plat that are not included as an outlot within this plat. As currently proposed and noted on the applicable preliminary plat, the remnant 40 plus acre parcel currently has divided interests of two different owners. The applicant shall provide information on how this will be accomplished prior to recording this final plat without the creation of any illegal parcels and violation of the City of Madison Subdivision Ordinance and state statutes.

30. The eight new street names were preapproved and are valid for use.

31. Grant a 15-foot wide Temporary Grading and Sloping Easement to the City of Madison for the construction of future public street improvements along Reiner Road and Commercial Avenue over the outlots reserved for future development when they are platted. The easement shall terminate upon the completion of construction of the construction of the full cross section of public improvements within the right of way adjacent to these outlots.

32. For any necessary off-site public sanitary sewer, drainage or storm sewer improvements required to serve this development, the developer shall acquire the right of way and/or easements as required at their expense. If an easement is required, a separate City of Madison Office of Real Estate Services project shall be created to draft, administer and record the required easement. Contact Jeff Quamme of Engineering-Mapping (jrquamme@cityofmadison.com, 608-266-4097) to coordinate any necessary Real Estate project, and associated information and fees required.

33. Show and label MG&E Electric Transmission Line Easement per Document No. 2108614 that was also assigned to ATC per Document No. 4202339, and shall be noted on the plat and updated in the title report. The applicant shall coordinate ATC's conveyance of rights of the easement to the City of Madison for that portion within a public right of way. Upon submittal of the final plat, contact Jeff Quamme (jrquamme@cityofmadison.com) to coordinate and set up a Real Estate project.

34. The permanent limited easement for storm water drainage purposes per Document No. 5823998 at the west end of proposed Blissful Avenue shall be released by the City of Madison prior to final platting of that street.

35. The portion of Commercial Avenue/ CTH T that was previously conveyed by Document No. 643759 shall be removed from the right of way to be dedicated by this plat.

36. The surveyor shall provide the basis of the right of way of Commercial Avenue. The right of way plat for old Highway 30 per the right of way plat and conveyance leaves latitude for interpretation and refers to the previous town road. Contact Jeff Quamme jrquamme@cityofmadison.com., (608) 266-4097 to coordinate.
37. Access control regulations by Document Nos. 820381 and 1368501 are being reviewed to determine if there are State or County agencies that may have rights of access control. This shall be determined prior to the recording of any final plat having a boundary abutting Commercial Avenue.
38. No vehicular access shall be noted along Reiner Road, Felland Road, and Commercial Avenue. The outlots reserved for future development may have the access restrictions modified as part of a future land division approved by the City of Madison.
39. Coordinate and request from the utility companies serving this area the easements required to serve this development. Those easements shall be properly shown, dimensioned and labeled on the final plat. Those easements shall be properly shown, dimensioned and labeled on the final plat. This includes easements required by the City of Madison for wet utilities if necessary.
40. As required by Ordinance, provide private Easements or private Outlots to accommodate the current USPS required centralized delivery of mail using Cluster Box Units (CBUs). Coordinate the locations of the CBUs with the USPS Development Coordinator, City Engineering and Traffic Engineering Staff and in accordance with the Policies for Cluster Box Units as adopted by the City of Madison Board of Public Works. CBUs serving this land division will not be permitted within any publicly owned or dedicated lands.

At a minimum, the final placement of CBUs for each phase of development subject to this preliminary plat shall be determined prior to construction. The locations for each phase shall be as required by Ordinance, in accordance with the Policies for Cluster Box Units as adopted by the City of Madison Board of Public Works and in compliance with United States Postal Service requirements.

The required CBU documents shall be recorded prior to the start of construction of the public improvements serving any Lot or Outlot. In the instance of land divisions that do not require the construction of public improvements or a contract with the developer, the required approved CBU documents shall be recorded simultaneously with the final approved land division. Construct the CBUs in accordance with the specifications approved by the Board of Public Works.
41. Add a note: Outlots 1, 2, 3, 4, 6 and 7 of this plat are prohibited from further development until they are further subdivided in substantial conformance with the Preliminary Plat conditionally approved by Resolution RES-__-_____, File ID , Adopted _____, 202_ by the Madison Common Council or any subsequent City of Madison approved Preliminary Plat and Final Plat or Certified Survey Map.
42. Wisconsin Administrative Code A-E 7.08 identifies when Public Land System (PLS) tie sheets must be filed with the Dane County Surveyor's office. The developer's surveyor and/or applicant shall submit copies of required tie sheets or monument condition reports (with current tie sheet attached) for all monuments, including center of sections of record, used in this survey, to Jeff Quamme, City Engineering (jrquamme@cityofmadison.com).

43. Prior to Engineering final sign-off by main office for final plats (CSM), the final Plat must be submitted in PDF format by email transmittal to Engineering Land Records Coordinator Jeff Quamme (jrquamme@cityofmadison.com) for final technical review and approval. This submittal must occur a minimum of two working days prior to final City Engineering Division sign-off.
44. Fix the overlapping text within Outlot 5 on the plat. Also, provide all recorded as information on all lines of the exterior boundary.
45. Provide updated title to reflect the correct ownership prior to final plat sign off.
46. The applicant shall submit to Jeff Quamme, prior to final Engineering sign-off of the subject CSM, one (1) digital CADD drawing in a format compatible with AutoCAD. The digital CADD file(s) shall be referenced to the Dane County Coordinate System and shall contain, at minimum, the list of items stated below, each on a separate layer/level name. The line work shall be void of gaps and overlaps and match the final recorded CSM: right of way lines (public and private); lot lines; lot numbers; lot/plat dimensions; street names, and; easement lines (including wetland and floodplain boundaries).

*This transmittal is a separate requirement than the required submittals to Engineering Streets Section for design purposes. The Developer/Surveyor shall submit new updated final plat, electronic data and a written notification to Engineering Mapping for any changes to the plat which occur subsequent to any submittal.

Please contact Sean Malloy of the Traffic Engineering Division at (608) 266-5987 if you have any questions regarding the following eleven (11) items:

47. The applicant shall work the Traffic Engineering and City Engineering Divisions on determining the final right of way dedication required for Reiner Road.
48. The applicant shall work Traffic Engineering and City Engineering Divisions on determining the final right of way dedication required for Felland Road.
49. The applicant shall submit a traffic study analyzing the impacts of their development on the intersection of Commercial Avenue/Reiner Road/Sprecher Road and be responsible for any improvements as approved by the Director of Traffic Engineering.
50. The applicant shall add a note to the plat stating no driveway shall be constructed that interferes with the orderly operation of the pedestrian walkway. This will require all pedestrian ramps to be constructed separate from driveway entrances; a curb-head of no less than six inches in width shall be constructed between all pedestrian ramps and driveway entrances. This is especially important at 'T' intersections where lot and building layout become critical; to prevent interference with the pedestrian ramp, lots intersecting or adjacent 'T' intersection may require a shared driveway and access.
51. The applicant shall provide a minimum 150-foot centerline radius and a minimum 100-foot tangent between curves on all public right of ways in this plat per MGO Section 16.23(6)(a)(11).

52. The applicant shall dedicate sufficient right of way to allow for minimum eight (8)-foot terraces on all streets in this plat. Any variances shall be approved by the City Traffic Engineer.
53. Prior to final sign-off, the applicant shall work with the Traffic Engineering Division's Electrical Section to record the necessary easements for streetlights. Typically, Traffic Engineering requires a 12-foot easement between lots and 6-foot easements on corner lots where streetlights are needed.
54. The applicant shall execute and return a declaration of conditions and covenants (DCC) for streetlights prior to sign off of the final plat.
55. Blissful Avenue and Whooping Crane Drive shall be classified as Community Connector Streets as defined by the current Complete Green Streets Guide.
56. House Wren Road, Tree Swallow Lane, Herring Gull Lane, Prairie Falcon Drive, Indigo Bunting Lane, and Song Sparrow Street shall be classified as Neighborhood Streets as defined by the current Complete Green Streets Guide.
57. Eastern Phoebe Street shall be classified as Neighborhood Yield Streets as defined by the current Complete Green Streets Guide.

Please contact Trent W. Schultz of the Parking Division at (608) 246-5806 if you have any questions regarding the following item:

58. The agency reviewed this project and determined a Transportation Demand Management (TDM) Plan is not required as part of subdivision review. As development progresses in the subdivision, residential uses with 10 or more dwelling units and other applicable uses in MGO Section 16.03 will be subject to TDM Plan review.

Please contact Jeff Belshaw of the Madison Water Utility at (608) 261-9835 if you have any questions regarding the following two (2) items:

59. The developer shall construct the public water distribution system and services required to serve the proposed subdivision plat per MGO 16.23(9)(d)(3).
60. All public water mains and water service laterals shall be installed by a standard City subdivision contract / City- Developer agreement. Applicant shall contact City Engineering Division to schedule the development of plans and the agreement. See Engineering Division comments for additional information.

Please contact Brian Kowalski of the Parks Division at (608) 243-2848 if you have any questions regarding the following four (4) items:

61. No park land dedication is included in the Reiland Grove Final Plat. Park-Land Impact Fees, per MGO Sections 16.23 (6)(f) and 20.08(2) will be required for all new residential development associated with the Reiland Grove Final Plat. As the remainder of the lands included in the Reiland Grove Preliminary Plat are platted, Park-Land Impact Fees could be credited for parkland dedication of Outlot 6, shown

in the preliminary plat. This would be determined when Outlot 6 of the Reiland Grove Preliminary Plat is dedicated as park land.

62. Park Impact Fees (comprised of the Park Infrastructure Impact Fee, per MGO Sec. 20.08(2)), and Park-Land Impact Fees, per MGO Sections 16.23(8)(f) and 20.08(2) will be required for all new residential development associated with this project. This development is within the East Park-Infrastructure Impact Fee district. Please reference ID# 25031 when contacting Parks Division staff about this project.
63. The following note should be included on the final plat: “Lots within this subdivision are subject to impact fees that are due and payable at the time building permit(s) are issued.”
64. Prior to sign-off on the final plat, the applicant shall execute a declaration of conditions and covenants for impact fees. The Parks Division shall be required to sign off on this plat.

Please contact Andy Miller of the Office of Real Estate Services at (608) 261-9983 if you have questions about the following twelve (12) items:

65. Prior to approval sign-off by the Office of Real Estate Services (“ORES”), all parties having an interest in the property, pursuant to Wis. Stats 236.21(2)(a), shall execute the Owner’s Certificate on the plat. Certificates shall be prepared with the ownership interests consistent with the most recent title report. Signatories shall provide documentation that proves legal authority to sign the Owner’s Certificate. If any of the land within the plat boundary is under contract for sale or purchase, and said transfer will be conducted at the time of plat recording, an escrow agreement may be necessary. Please discuss closing plans with your contact in ORES in advance of signoff. When possible, the executed original hard stock recordable plat shall be presented at the time of ORES approval sign-off. If not, the City and the Register of Deeds are now accepting electronic signatures. A PDF of the plat containing electronic signatures shall be provided to ORES to obtain approval sign-off.
66. Prior to plat approval sign-off, an executed and notarized or authenticated certificate of consent for all mortgagees/vendors shall be included following the Owner’s Certificate(s).
67. If a mortgage or other financial instrument is reported in record title, but has been satisfied or no longer encumbers the lands or ownership within the plat boundary, a copy of a recorded satisfaction or release document for said instrument shall be provided prior to plat approval sign-off.
68. A Consent of Lessee certificate shall be included on the final plat for any tenancy in excess of one year, recorded or unrecorded, and executed by said tenant prior to agency plat approval sign-off. ***For agricultural lands being platted, verify if farm leases are in place.***
69. If any portion of the lands within the plat boundary are subject to an Option to Purchase or other option interest please include a Certificate of Consent for the option holder and executed prior to approval sign-off.

70. As of December 4, 2025, the 2024 real estate taxes are paid for the subject property. Under 236.21(3) Wis. Stats. and MGO Section 16.23(5)(g)(1), the property owner shall pay all real estate taxes that are accrued or delinquent for the subject property prior to Plat recording. This includes property tax bills for the prior year that are distributed at the beginning of the year. Receipts are to be provided on or before sign-off and checks are payable to: City of Madison Treasurer; 210 Martin Luther King, Jr. Blvd.; Madison, WI 53701.
71. As of December 4, 2025, there are no special assessments reported for the parcels within the plat boundary. Pursuant to MGO Section 16.23(5)(g)1 and Wis. Stats. 236.21(3), all special assessments, including accrued interest in the case of delinquencies, shall be paid by the owner prior to plat approval sign off. Receipts for payment shall be provided to ORES in advance of plat approval sign-off.
72. A title report was submitted with the application and preliminary plat, but an updated title report was not received with the revised final plat. This will be required prior to sign-off to ensure any changes to the title report are reflected on the final plat. Pursuant to MGO Section 16.23(5)(g)(4), the owner shall furnish an updated title report to ORES via email to Trent Milliken (tmilliken@cityofmadison.com), as well as the surveyor preparing the plat, an updated title report covering the period between the date of the initial title report (April 9, 2025) and the date when sign-off approval is requested. A title commitment may be provided, but will only be considered as supplementary information to the title report update. The surveyor shall update the plat with the most recent information available in the title report update. ORES reserves the right to impose additional conditions of approval in the event the title update contains changes that warrant revisions to the plat.
73. Accurately reflect the contents of the title report when preparing the final plat.
74. Depict, name, and identify by document number on the proposed plat all existing easements cited in record title. Electric Line Easement for Transmission and Distribution per Document No. 2108614 not depicted or noted.
75. Record satisfactions or releases for all recorded instruments that encumber or benefit the subject lands, if all interested parties agree that the purpose for such instrument is no longer necessary or relevant for the purposes of the land division.
76. Initiate requests to all applicable utilities to record releases of their interests in utility easements in underlying plats or CSMs, if this proposed plat is a redivision of existing plats or CSMs with utility easements that will no longer be applicable; and, prior to requesting sign-off, place a note in the proposed plat citing the recording data for the City's recorded release of same.

Please contact my office at (608) 261-9632 if you have questions about the following five (5) items:

77. The applicant shall submit to the Planning Division two copies of private subdivision covenants, conditions and restrictions, and easements that will govern the organizational structure, use, maintenance and continued protection of the development and any common services, open areas or other facilities to serve the proposed plat (private alleys, open spaces, etc.). These documents shall

be approved by the Planning Division in consultation with the City Attorney's Office prior to final approval of the plat for recording.

78. That prior to final approval and recording of a final plat containing private open spaces, the applicant shall demonstrate compliance with the requirements in Section 16.23(8)(f)8 of the Subdivision Regulations for privately-owned and maintained open space, including the execution of land use restrictions and open space easements in a form acceptable to the Parks Division, Planning Division, and City Attorney's Office.
79. The proposed subdivision includes lots to be developed with buildings that share common walls. Consistent with the requirements in Section 16.23(3)(a)9. of the Subdivision Regulations and Section 28.151 of the Zoning Code, the applicant shall record a joint cross access and maintenance agreement to govern the common access to and maintenance of the shared common features of such proposed buildings, including but not limited to driveways, utilities, walkways, roofs, and exterior walls. The applicant shall provide a draft of this agreement for review and comment by City staff prior to recording.
80. That prior to recording of a final plat of the subdivision, the applicant work with City Engineering and Planning staff to explore "distributed infiltration" practices as part of the means to meet the infiltration requirements identified under Chapter 37, MGO, the Northeast Neighborhood Development Plan, and those recommended in the 2010 CARPC CUSA amendment approval resolution. These methods could include but not be limited to: rain gardens installed to serve a "block of lots", pervious pavement, depressed terraces, rain barrels and/or other methods. These "distributed" practices would be used in coordination with regional, plat-level practices.
81. That the applicant work with the Planning Division and Capital Area Regional Planning Commission to revise the environmental corridor map to reflect any changes to the mapped corridor proposed by the development prior to final approval and recording of the final plat.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

In order to commence the process for obtaining the necessary City signatures on the final plat, the applicant shall e-mail the revised plat, updated title report, and any other materials required by reviewing agencies to the reviewing planner. The reviewing planner will share the updated materials with the relevant commenting City agencies for them to verify that their conditions have been satisfied and that the secretary or designee may sign the Plan Commission approval certificate. Once the Plan Commission certificate is executed, the Planning Division will notify the City Clerk's Office that the Common Council certificate may be executed and the City Treasurer that his signature may be affixed.

Once all of the necessary City signatures have been affixed to the final plat, the instrument may be recorded at the Dane County Register of Deeds Office. For information on recording procedures and fees, please contact the Register of Deeds at (608) 266-4141.

Reiland Grove – Final Plat
6004 Commercial Avenue
& 602-902 Reiner Road
January 21, 2026
Page 12

Any appeal regarding the plat, including the conditions of approval related thereto, must be filed with the Circuit Court within thirty (30) days from the date of this letter. **The approval of this final plat shall be null and void if not recorded in twelve (12) months from the date of the approving resolution or this letter, whichever is later.**

If I may be of any further assistance, please do not hesitate to contact me at (608) 261-9632 or tparks@cityofmadison.com.

Sincerely,

Timothy M Parks
