BPW Meeting October 7, 2026

Review of Projects by Engineering Environmental Staff for Impacts to Water Resources

19. **94993** Approving revised plans and specifications for Mineral Point Road Assessment District - 2026. (District 1, District 9)

This project would normally require both WDNR and City permitting but it is being let by the WDOT which has a memorandum with the WDNR regarding Erosion Control permitting and the City cannot issue a permit to the state, as a result no permits are needed.

21. **94998** Approving plans and specifications and authorizing the Board of Public Works to advertise and receive bids for the Castle Creek Channel Improvements at Warner Park. (District 12)

This project will require a WDNR Chapter 30 permit, and both City and WDNR Erosion Control permitting.

Prepared by Greg Fries, City Engineering 10/01/2026
