

ID#: 14548

ATTENTION ALL JAVA FRIENDS AND CAT LOVERS!!!

The cities of Monona and Madison are proposing an expansion of Monona Drive. The largest proposed expansion would take TEN feet from us, eliminating our drive-thru, all of our outdoor seating, and three to four parking spaces. The smallest expansion would take about THREE feet. Both propositions would include the construction of bike lanes. All of us at the Cat believe that redoing Monona Drive is necessary and the addition of bike lanes would benefit the public as a whole, however a TEN feet expansion to include eight foot sidewalks is a bit drastic and detrimental to the businesses on the Monona Drive, Cottage Grove Road intersection. We concede that expanding Monona Drive by THREE feet is plenty to serve the general interests of the public. If you would like to keep the expansion to the minimum three feet expansion, saving local businesses from the loss of indispensable space, please sign below.

Thank you!

ATTENTION ALL JAVA FRIENDS AND CAT LOVERS!!!

The cities of Monona and Madison are proposing an expansion of Monona Drive. The largest proposed expansion would take TEN feet from us, eliminating our drive-thru, all of our outdoor seating, and three to four parking spaces. The smallest expansion would take about THREE feet. Both propositions would include the construction of bike lanes. All of us at the Cat believe that redoling Monona Drive is necessary and the addition of bike lanes would benefit the public as a whole, however a TEN feet expansion to include eight foot sidewalks is a bit drastic and detrimental to the businesses on the Monona Drive, Cottage Grove Road intersection. We concede that expanding Monona Drive by THREE feet is plenty to serve the general interests of the public. If you would like to keep the expansion to the minimum three feet expansion, saving local businesses from the loss of indispensable space, please sign below.

Thank you!
