1. <u>Program Abstract</u>: Provide an overview of the project. Identify the community need to be addressed. Summarize the program's major purpose in terms of <u>need</u> to be addressed, the <u>goals</u>, procedures to be utilized, and the expected outcomes. Limit response to 150 words.

Our building houses the Wisconsin Youth and Family Center (WYFC). Currently our parking lot needs to be redesigned and expanded to increase safety and improve access. The parking lot has not been updated since the building was built in 1985 for other purposes. The lot is too small to accommodate the necessary traffic of a community center and the layout forces our shuttle bus to back up rather than circle which creates dangerous situations. The lack of parking spaces limits the participation by our families especially for family nights or when the youth are performing. WYFC could be used by senior citizens and others if there was convenient, safe parking. Adding an exit onto Gammon Lane will allow drivers to turn onto a much less traveled street than McKenna. Expanding and redesigning the lot achieves the outcomes of increased safety for our children and more access by other groups.

2. <u>Target Population</u>: Identify the projected target population for this program in terms of age, residency, race, income eligibility criteria, and other unique characteristics or sub-groups.

The WYFC provides programs for K-12 grade youth in the Greater Elver Park Neighborhood. All youth participants enrolled in programs at the WYFC are eligible for free or reduced meals through the school district they attend. Current enrollment in the youth programs are 99% African American. The center is available to senior citizens and others for meetings and activities when the building is not being used by our youth. We have been unable to attract many groups because of the lack of adequate parking close to the building.

A. Housing – Existing Owner-Occupied G. Neighborhood Civic Places B. Housing – For Buyers K. Community-based Facilities C. Housing - Rental Housing L. Neighborhood Revitalization E. Economic Dev. – Business Creating Jobs N. Access to Housing Resources F. Economic Dev. – Micro-enterprise K. Community-based facilities An upgrade to our present parking lot will allow our organization to better serve the Greater Elver Park neighborhood. We will increase our parking lot from 31 to 58 stalls with another 22 stalls located in the lower lot at Griff's (north side of the parking lot is owned by WYC) we will be bringing the lot up to code with additional handicapped accessible stalls and improved lighting. In addition, the over-sized stalls for our buses and vans will provide satisfactory parking for these vehicles that are critical to the youth participating in our programs. The upgrade will provide a second access drive in and out of the lot on Gammon Lane which will allow all vehicles (large and small) to enter and exit from either drive thus providing a safer lot for all users. Fund Objectives: Check the fund program objective which this project meets. (Check all for which you seek funding.) 3. Program Objectives: The 5-Year Plan lists 9 project objectives (A through N). Circle the one most

applicable to your proposal and describe how this project addresses that objective.
