RE: City Development Review & Approval Initiative

On June 16th, Mayor Cieslewicz charged the City's Economic Development Committee (EDC) and staff with making recommendations regarding the review and approval of real estate development projects in the City.

As with any process, the one used in seeing a development through City land use approvals should be routinely reviewed and improved. The Mayor has established several goals for this initiative, calling for a process that is::

- Efficient
- Predictable & uniform
- Maintains existing high standards

The City's current development process is outlined in ["Participating in the Development Process: A Best Practices Guide for Developers, Neighborhoods & Policymakers"](#) published by the City in June, 2005.

The EDC has already received several recommendations regarding the development process. We've posted them on the Legistar system together with several previous reports on the subject. Links to reports and recommendations received to-date are attached to this memo, and available through Legistar #18121.

We are now requesting that your organization/commission likewise consider providing feedback regarding the City's development review process.

Your recommendations and comments should be submitted in writing so they can be considered for inclusion in our report and recommendations. Submissions should be sent in electronic form, if possible, to Peggy Yessa at pyessa@cityofmadison.com. If it is not possible to send your comments via email, please send them as a hard copy to:

Peggy Yessa
City of Madison Economic Development Division
Madison Municipal Building
P.O. Box 2983
Madison, WI 53701

Please have any written comments and/or recommendations in by Friday, July 30, 2010, if at all possible. A preliminary report will be prepared based on all of the feedback received, and submitted to the EDC on August 18th.

If you have any questions, please [email](#) or call Ms. Yessa at 608-267-8721

The EDC has established a timeline for completing this initiative that provides numerous opportunities for additional public participation:
