

My company will be working with “My Buddies” restaurant on the east side of Madison, in the former Babe’s East location. We will be providing state of the art point of sale equipment and software, along with surveillance equipment. Having the latest in technology helps to provide an efficient work environment and increases the probability of success.

We look forward to working with Joe, Jason and Dale providing they are able to move forward with their licensing.

Thank you for your consideration.

Sincerely

Phil Lambert
