B. Indicate how the project will demonstrate that the housing units will meet housing and code standards.

The project will be designed by a licensed architect and engineer who will ensure it meets or exceeds all required codes and building standards.

C. Describe briefly your tenant selection criteria and process.

To identify prospective tenants, Movin' Out engages in affirmative marketing which is intended to reach populations that may not otherwise hear of our housing opportunities. We also use an extensive network among disability related organizations, brokers and local residential service agencies to get the word out that a unit is available. All applicants are required to complete an application and submit income and disability verifications. Each application undergoes a criminal and credit check as well as a review of the applicant's rental history. Attached to this application is a copy of Movin' Out's Tenant Selection Policy.

D. Does the project include plans to provide support services to assisted residents or to link assisted residents to appropriate services? If yes, describe.

Movin' Out does not develop, own or operate any housing that congregates special needs households or requires any licenses. Our mission is to provide affordable and accessible housing opportunities to households with disabilities in highly integrated settings. We plan to accomplish this through affirmative marketing efforts.

For the households that include people who need supportive services Movin' Out coordinates with other residential support service agencies to ensure those services are available. These proposed tenants receive comprehensive, self-directed, community-based supportive services funded and administered by the Adult Community Services Division of the Dane County Department of Human Services (ACS). Service planning and coordination is undertaken by ACS and its affiliated support brokers and service providers. Each tenant has a support broker who assists the tenant in creating a service plan and budget, identifying service providers, and monitoring and documenting the quality of support delivered. Participants have a range of supportive service providers capable of planning and providing individualized services.

The initial tenants have access to support brokers who help to identify and coordinate supports within the supportive service funding available to the person. The support broker assists the person in developing an individualized person-centered plan. Tenants may choose a support broker from among the support broker agencies that contract with Dane County Department of Human Services.

These tenants are expected to be eligible for supportive services funded by Medicaid waiver and other programs and administered by the Adult Community Services Division of Dane County Department of Human. Prospective tenants are now affiliated or may choose to affiliate with an county-approved agency that meets their needs and choices.

The initial tenants are expected to be eligible for vocational services or adult day services administered by the Adult Community Services Division of the Dane County Department of Human Services. Prospective tenants are now affiliated or may choose to affiliate with a county or managed care contracted agency that meets their needs and choices.

The Dane County Department of Human Services website, <a href="http://www.danecountyhumanservices.org">http://www.danecountyhumanservices.org</a>) provides information on the self-directed services program, supportive service provider agencies, and other community resources. Information about applying for supportive services is available at the intake line at 608-242-6440 or email <a href="mailto:DDInfo@countyofdane.com">DDInfo@countyofdane.com</a> or from the independent living center, Access to Independence, <a href="http://www.accesstoind.org">http://www.accesstoind.org</a>.
