Dear Amy and the Landmark Commission,

My name is Ann Sowaske. My husband & I have lived in the Spring Harbor neighborhood for 48 years and are committed to it's value. I am the chair of the history committee.

Amy

Kinast is on this committee also. She has done a remarkable job of researching the history

of the Erdman building, for which I am very grateful. I do believe it is worth saving and can see a possibility of incorporating it into the U.W. plan. I think there can be a way of keeping it in the complex planned for this area, since there is still not a final plan accepted,

if I understand the latest news.

I would appreciate thoughtfulness in considering this issue. Our neighborhood is rich in history which we are working to preserve. Spring Harbor Middle School is also concerned with this. They are helping the neighborhood restore the park across the street from the school and have also worked on restoring Kettle Pond park on Norman Way & Old Middleton Road.

Thank you for your work on keeping Madison historic.

Sincerely,

Ann Sowaske
