Subject: Erdman Redevelopment

Dear Mayor, Alderpersons,

We oppose landmark status for the old Erdman shop/office building on University Avenue. We support the redevelopment plan proposed for UW Health. We live nearby and have attended several of the neighborhood meetings. The request for landmark status, filed well after the proposed project was announced, appears unsupported except as the vehicle for a small group of opponents who desire to stop it. To us, the proposed development appears well planned, desirable and an economic plus for the area and the city. It is about as benign a project as we could imagine and should not have any adverse impacts on the neighborhood. We request your support in opposing landmark status for the Erdman Office and in facilitating city approvals for the proposed redevelopment. Thank you.

Sincerely,

Lanny & Margaret Smith
